Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the San Marino Unified School District (the District) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the San Marino Schools Foundation, which statements reflect total assets of \$5.13 million and total revenues of \$2.62 million for the year ended June 30, 2019 and represent 100% of the assets, net position, and revenues of the discretely presented component unit. Those statements were audited by other auditors whose report has been furnished to us, and in our opinion, insofar as it relates to the amounts included for the discretely presented component unit, is based solely on the report of other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the discretely presented component unit were not audited in accordance with *Government Auditing Standards*.

INDEPENDENT AUDITORS' REPORT

Board of Education
San Marino Unified School District
San Marino, California

An audit involves performing procedures to obtain evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to in the aforementioned table of contents, present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the District as of June 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information schedules as listed in the aforementioned table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedule of expenditures of federal awards, as required by *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, the combining non-major fund financial statements, and the other supplementary schedules as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Average Daily Attendance (ADA), Schedule of Instructional Time, Schedule of Expenditures of Federal Awards, Reconciliation of the Annual Financial and Budget Report with the Audited Financial Statements, the Notes to the Supplementary Information and the combining non-major fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated, in all material respects, in relation to the financial statements as a whole.

The History and Organization, the Schedule of Financial Trends and Analysis and the Schedule of Charter Schools have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 13, 2019 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

SAN MARINO UNIFIED SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2019

INTRODUCTION

This discussion and analysis of San Marino Unified School District's (District) financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2019. This information is to be read in conjunction with the District's financial statements, which immediately follows this section.

FINANCIAL HIGHLIGHTS

The District's 2018-19 Budget was based on the final state budget for K-12 Education under the Local Control Funding Formula.

Certificated and classified employee salaries were adjusted for step and column, and longevity steps, along with a 1% on-schedule salary adjustment. The District offers Blue Shield PPO and HMO and, Kaiser HMO medical insurance as well as dental, vision, life insurance to all eligible employees (working 60% or more). The District has a health benefits savings fund whereby savings in any given year is reserved to offset future year premium increases. After application of any savings amounts, for the Blue Cross PPO plan the District provides \$6,000 for employee only coverage, \$9,000 for two-party coverage, and \$12,000 for family coverage. Any excess costs above these amounts are paid by the employees. For HMO plans, there is no employee only co-pay, and for two-party and family coverage employees pay 30% of the premium cost. Both the District and employees' share of health benefit premium costs increased in 2018-19. The Health and Welfare Fund is considered part of the District's fund balances in the audited financial statements in compliance with GASB Statement No. 54 requirements.

The P2 average daily attendance (ADA) used for Local Control Funding Formula calculation purposes in 2018-19 totaled 2,899 ADA.

During the 2018-19 fiscal year, the District Budget and cash flow expenditures were closely monitored and expenditures were limited and/or withheld where possible, given the uncertainty of State finances. In compliance with GASB Statement No. 54, the District's financial statements combine the Special Reserve Fund for Other Than Capital Outlay Projects (Cash Flow Fund) and the General Fund for reporting purposes.

The District reduced its outstanding long-term debt relating to general obligation bonds by \$2.4 million.

The District continued to use the \$6.5 million in proceeds from the March 2017 issuance of Certificates of Participation (COP) for construction of the Barth Athletics Complex. The complex includes a new full-size gymnasium, multi-purpose/wrestling room, fitness center, locker rooms, and two state-of-the-art media classrooms for the students at Huntington Middle School. The project was funded by District capital and developer fee funds, local donations, and proceeds from the COP. The debt service payments for the first four years (through 2020-21) are

being fully funded by local donations in accordance with an agreement between private donors and the District. The District's plan is to pay off the remaining outstanding COP principal amount if a local general obligation bond is approved by voters.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – Management discussion and analysis, the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

The first two statements are *District-wide financial statements* that provide both short-term and long-term information about the District's overall financial status and which uses the full accrual method of accounting. The remaining statements are *fund financial statements* that focus on individual parts of the District, reporting the District's operations in more detail than the District-wide statements, based on the modified method of accounting.

The *Governmental funds* statements tell how basic services such as regular and special education were financed in the short term as well as what remains for future spending.

Fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others to whom the resources belong.

The financial statements also include *notes* that explain some of the information in the statements and provide more detailed data. The District has two kinds of funds:

- *Governmental funds* – Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out, and (2) the balances left at year-end. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or less financial resources to finance the District's programs. Because this information does not encompass the additional long-term focus of the District-wide statements, we provide additional information in the notes to the financial statements.
- *Fiduciary funds* – The District is the trustee, or fiduciary, for assets that belong to others and/or are assigned for restricted purposes, namely, the student body activities funds and other post-employment benefits trust. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position. We exclude these activities from the District-wide financial statements because the District cannot use these assets to finance its operations.

SAN MARINO UNIFIED SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2019

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE (continued)

Changes in net position, governmental activities. Revenues increased by \$1.2 million primarily due to increases in property tax and other local revenues. Expenditures increased by \$1.7 million mainly due to salary increases, step and column adjustments, pension obligations and health benefit increases. Within the District's General Fund, expenditures increased by \$2.2 million compared to the 2017-18 year.

Governmental Activities

The District's financial management practices are based on the following:

- Focus on financial stability, and cash flow management.
- Internal control procedures to monitor budget allocation and expenditures.
- Budget adjustments, reconciliation of personnel costs, line-item budgeting, and multi-year budget projection interim financial reporting.
- Monitoring and adjustments of class sizes and staffing by grade level.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The financial performance of the District as a whole is primarily reflected in its General Fund. As the District completed the 2018-19 fiscal year, its General Fund ending balance, was \$3,549,601. This is exclusive of funds required to be reported with the General Fund as described in Note 1. The District has met the minimum fund balance requirement of 3%.

The financial performance of the District's other funds are as follows:

Food Services Fund 13.0

The Food Services Fund ended the 2018-19 fiscal year with a balance of \$50,224. \$17,748 represents inventory on hand at June 30, 2019. Amounts in the fund are dedicated to food service operations.

Deferred Maintenance 14.0

The Deferred Maintenance Fund ended the 2018-19 fiscal year with a balance of \$463,770. These funds are designated for maintenance of District buildings and facilities.

Health Benefits Reserve Fund 17.0

The Health Benefits Fund ended the 2018-19 year with a balance of \$9,913. Periodically, the District received rebates from the Section 125 Program and, in accordance with its negotiated

agreements with employee units, all realized rebates and savings are transferred to the Health Benefits Reserve Fund to offset future year premium increases.

Cash Flow Fund 17.2

The Cash Flow Fund ended the 2018-19 fiscal year with a balance of \$1,313,743. The fund is used to offset the District's deficit as a result of increases in employer contributions for CalSTRS and CalPERS.

Capital Facilities 25.0

The fund ended the 2018-19 fiscal year with a balance of \$209,089. The funds are restricted for construction of the Barth Athletics Complex at Huntington Middle School.

Capital Improvement Fund 40.0

The fund ended the 2018-19 fiscal year with a balance of \$2,932,252. The funds are restricted for construction of the Barth Athletics Complex at Huntington Middle School.

Bond Interest & Redemption Fund 51.0

The fund ended the 2018-19 fiscal year with a balance of \$4,850,882. The fund represents the pass-through of revenue sources and expended outflows associated with the District's issuance of general obligation bonds approved in 1996 and 2000. These funds are not considered "District" funds and they cannot be used for any other purpose other than to pay bondholders.

SAN MARINO UNIFIED SCHOOL DISTRICT
MANAGEMENT’S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2019

GENERAL FUND BUDGETARY HIGHLIGHTS

During the fiscal year, budget revisions and appropriation transfers are presented to the Board of Education for their approval to reflect changes to both revenues and expenditures that become known during the year. In addition, the Board of Education approves financial projections included with the Adopted Budget, First Interim, and Second Interim financial reports. The Unaudited Actuals reflect the District’s year–end actuals, current and future year financial projections based on State and local financial assumptions.

Budget adjustments to revenues and expenditures for the year include:

- Additional contributions received from the San Marino Schools Foundation, and PTA/PTSA’s, and parent donations for specific purposes
- Reimbursement from the West San Gabriel JPA
- Salary and benefit adjustments
- Assigned carry–over amounts
- Changes in federal, state and other local income

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

By the end of the 2018-19 fiscal year, the District had increased its total capital assets by \$7.5 million due to construction of the Barth Athletics Complex at Huntington Middle School. See Note 7 for additional information.

CAPITAL ASSET AND DEBT ADMINISTRATION (continued)

Long-Term Debt

At year-end, the District had approximately \$83.1 million in long-term debt. General obligation bond debt decrease by approximately 7% from the prior year. This decrease is due to the repayment of the 1996, and 2000 General Obligation Bonds. See Note 9 for additional information.

Standard and Poor’s Rating Services (S&P) maintained the District’s bonded debt rating at AA+ and in July 2018 Moody’s affirmed the District’s bonded debt rating at Aa1.

Pension liabilities increased due to the actuarial valuations and measurement of pension liabilities as more fully described in Note 12.

	June 30, 2018	June 30, 2019

PARCEL TAXES

The District has two parcel taxes that help to support the high quality of education that its schools provide for all students. The District has had a parcel tax in place since 1991. The District is appreciative of the community’s support, which helps to maintain its educational excellence.

Measure R

On February 26, 2019, the District voters approved the renewal of Measure R, one of the District’s two parcel taxes, for a six-year term. The assessment for the 2018-19 fiscal year was \$366.40 per parcel. For the 2019-20 year, the parcel tax will remain constant at \$366 per parcel. Commencing in 2020-21, the parcel tax will be adjusted annually by the Los Angeles Metropolitan Statistical Area Consumer Price Index through 2024-25.

The parcel tax proceeds are used to retain and attract qualified teachers and counselors; maintain media specialists; support academic programs in science and math; provide teaching positions to support existing educational programs; prevent elimination of teachers in the areas of math and science; and, maintain adequate technology systems for all students.

MANAGEMENT’S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2019

PARCEL TAXES (continued)

Measure E

On March 10, 2015, the District voters approved renewal of Measure E, the second of the District’s two parcel taxes. The assessment for the 2018-19 fiscal year was \$926.94 per parcel. It is adjusted annually by the lesser of the Los Angeles Statistical Area Consumer Price Index or three percent. The term of the parcel tax is six (6) years, through 2020-21.

Proceeds received from Measure E are used to preserve core academic teaching positions, including English, math, social studies, history, and science; preserve smaller class sizes at all grade levels; visual and performing arts instruction, world language offerings, physical education and athletic programs; maintain advanced placement and honors courses; technology; and counseling positions.

For both parcel tax assessments, the District has a procedure in place for special exemptions for contiguous parcels, for seniors (age 65 or older), or for individuals on disability. Exemption applications are available from the beginning of January through June 30th of each year. In accordance with AB 1891 and Government Code 50079, exemptions remain in effect for the length of “qualified special taxes.”

In 2018-19, the District received \$5,745,908 in parcel tax revenues. The parcel tax revenues are critical to the District’s core instructional and support programs at all schools. Without the parcel tax revenues, the District would be forced to eliminate many of its core instructional programs and teachers, educational opportunities for its students would be restricted, and instructional and support positions would be reduced or eliminated.

The District publishes annual Parcel Tax Accountability Reports. The report includes detailed financial information on the key positions which are funded based on the parcel tax revenues. This report can be found on the District’s website.

FACTORS BEARING ON THE DISTRICT’S FUTURE

As of November 2019, according to the Legislative Analyst’s Office, state revenues are higher than projected, however, they also are expressing caution based on economic indicators that are signs of a forthcoming future recessionary period. The Local Control Funding Formula or LCFF, provides base grant funding, grade span adjustment funding for grades K–3, and 9–12, as well as targeted funding for special education transportation and unduplicated pupil counts (students who qualify for English language learning, free and reduced price meals, and foster youth). LCFF benefits those school districts with high percentages of students in need (i.e. unduplicated pupil counts in excess of 55%). Due to the District’s declining student enrollment and ADA, it is receiving very little, if any, new LCFF revenues and the District’s expenditures are outpacing its revenues. The increase in employer contributions for CalSTRS and CalPERS has significantly impacted the District’s budget.

AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2019**

Net change in fund balances - total governmental funds \$ (4,498,525)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more than \$5,000 are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlay	\$ 7,482,310	
Depreciation expense	<u>(4,293,554)</u>	
Excess (deficiency) of capital outlay over depreciation expense		3,188,756

Repayment of long-term debt is reported as an expenditure in governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

Certificates of participation principal payments	55,000	
Supplemental early retirement plan, payments	<u>63,791</u>	4,178,791

In governmental funds, pension costs are recognized when the employer contribution is made, but in the statement of activities, pension costs are recognized on the accrual basis. The difference between accrual basis pension costs and actual employer contribution was: (1,965,809)

In governmental funds, postemployment healthcare costs are recognized when the employer payment is made, but in the statement of activities, postemployment healthcare costs are recognized on the accrual basis. The difference between accrual basis postemployment healthcare costs and actual employer payments was: (133,691)

Some items reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. These activities consist of:

**SAN MARINO UNIFIED SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2019**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District accounts for its financial transactions in accordance with the policies and procedures of the Department of Education's *California School Accounting Manual*, updated to conform to the most current financial and reporting requirements promulgated by the California Department of Education. The accounting policies of the District conform to generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB).

The significant accounting policies applicable to the District are described below.

Basis of Presentation

The accompanying financial statements have been prepared in conformity with GAAP as prescribed by GASB. The financial statement presentation required by GASB provides a comprehensive, entity-wide perspective of the District's financial activities. The entity-wide perspective enhances the fund-group perspective previously required. Fiduciary activities are excluded from the basic financial statements and are reported separately in the fiduciary fund statements.

The District's basic financial statements consist of government-wide statements, including a Statement of Net Position, a Statement of Activities, and fund financial statements.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities displays information about the District as a whole. These statements include the financial activities of the primary government, including governmental activities of proprietary funds. Fiduciary funds are excluded.

The Statement of Net Position presents the financial condition of the governmental activities of the District at year-end. The Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District. Depreciation and interest expense have not been allocated to specific functions.

**SAN MARINO UNIFIED SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2019**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fund Financial Statements

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The fiduciary funds are reported by type.

The fund financial statement expenditures are presented in a function-oriented format. The following is a brief description of the functions:

Instruction: includes the activities directly dealing with the interaction between teachers and students.

Instruction-Related Services: includes supervision of instruction, instructional library, media and technology, and school site administration.

Pupil Services: includes home-to-school transportation, food services, and other pupil services.

Ancillary Services: includes activities that are generally designed to provide students with experiences outside the regular school day.

Community Services: includes activities that provide services to community participants other than students.

General Administration: includes data processing services and all other general administration services.

Plant Services: includes activities of maintaining the physical plant. This also includes facilities acquisition and construction expenditures.

Other Outgo: includes transfers to other agencies.

Debt Service: includes principal and interest payments for long term debt.

The fiduciary fund expenditures are presented by natural classification.

**SAN MARINO UNIFIED SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2019**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fund Accounting

To ensure compliance with the California Education Code, the financial resources of the District are divided into separate funds for which separate accounts are maintained for recording cash, other resources and all related liabilities, obligations, and equities.

The Statement of Revenues, Expenditures and Changes in Fund Balance are statements of financial activities of the particular fund related to the current reporting period. Expenditures of the various funds frequently include amounts for land, buildings, equipment, retirement of indebtedness, transfers to other funds, etc. Consequently, these statements do not purport to present the result of operations or the net income or loss for the period as would a statement of income for a profit-type organization. The modified accrual basis of accounting is used for all governmental funds.

Governmental Funds – Major

General Fund: used to account for all financial resources except those required to be accounted for in another fund. To comply with GASB reporting requirements, all activities of the Deferred Maintenance Fund and the Special Reserve Fund for Other Than Capital Outlay Projects are reported in the General Fund.

Special Reserve Fund – Capital Outlay: used to account for specific capital expenditures.

Bond Interest and Redemption Fund: used to account for the accumulation of resources for, and the payment of general obligation bond principal, interest and related costs.

Governmental Funds – Non-Major

Special Revenue Funds: used to account for the proceeds of specific revenue sources that are restricted or committed to expenditures for specific purposes other than debt service or capital projects.

Food Services Fund: used to account for revenues received and expenditures made to operate the District's food services operations.

Capital Projects Funds: used to account for the financial resources that are restricted, committed or assigned for the acquisition and/or construction of major governmental general fixed assets.

Capital Facilities Fund: used to account for resources received from residential and commercial developer impact fees.

**SAN MARINO UNIFIED SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2019**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fiduciary Funds

Associated Student Body Fund: used to account for raising and expending money to promote the general welfare, morale, and educational experiences of the student body. The District operates two Associated Student Body funds, one at the middle school and the other at the high school.

Retiree (OPEB) Trust Fund: used to accumulate irrevocable contributions for future retiree healthcare costs.

Agency Activities

The District operates a warrant pass-through fund as a holding account for amounts collected from employees for federal taxes, state taxes, and other contributions. The District had cash in the county treasury amounting to \$15,204 on June 30, 2019, which represents withholdings payable.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of measurement made, regardless of the measurement focus applied. Revenues in governmental fund financial statements are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation of expenses versus expenditures.

The statements of other post-employment benefits (OPEB) plan net position and changes in other post-employment benefits plan net position of the Retiree (OPEB) Trust are prepared using the accrual basis of accounting. Employer contributions to the plan are recognized when made or when amounts are due to fund benefit payments due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

**SAN MARINO UNIFIED SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2019**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand and demand deposits. Cash in the county treasury is recorded at cost, which approximates fair value.

Receivables

Receivables are generally recorded when the amount is earned and can be estimated. All material receivables are considered fully collectible. Per Education Code Section 33128.1, a local education agency may recognize for budgetary and financial reporting purposes any amount of state appropriations deferred from the current fiscal year and appropriated from the subsequent fiscal year for payment of current year costs as a receivable in the current year.

Investments

Investments in the PARS Post-Employment Benefits (OPEB) Trust are reported at fair value.

Inventories

Inventories are presented at the lower of cost or market on an average basis and are expensed when used. Inventory consists of expendable supplies held for consumption. At June 30, 2019, the inventory for supplies is \$3,139. The inventory for food is \$17,748.

Capital Assets

Generally, capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the Statement of Net Position, but are not reported in the fund financial statements.

Capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at acquisition value as of the date received. The District maintains a capitalization threshold of \$5,000. The District does not own any infrastructure as defined by GASB. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets except for land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2019**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

<u>Description</u>	<u>Estimated Lives</u>
Buildings and Improvements	20-30 years
Furniture and Equipment	5-20 years
Vehicles	6 years

Depreciation expense reported on the government-wide statement of activities excludes direct depreciation expense recorded to functions where applicable.

Deferred Outflows of Resources

Deferred outflows of resources represent a consumption of net position or fund balance that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expense/expenditure) until then. These amounts are reported in the government-wide statement of net position.

Deferred Outflows – OPEB: The deferred outflows of resources related to OPEB benefits results from the difference between expected and actual experience and changes in assumptions. The deferred outflows – OPEB will be deferred and amortized as detailed in Note 11 to the financial statements.

Deferred Outflows – Pensions: The deferred outflows of resources related to pensions resulted from District contributions to employee pension plans subsequent to the measurement date of the actuarial valuations for the pension plans, the effect of changes in proportion, and the difference between expected and actual experience. The deferred outflows – pensions will be deferred and amortized as detailed in Note 12 to the financial statements.

Unearned Revenue

Cash received for federal and state special projects and programs is recognized as revenue to the extent that qualified expenditures have been incurred. Unearned revenue is recorded to the extent cash received on specific projects and programs exceed qualified expenditures.

Compensated Absences

Accumulated unpaid employee vacation benefits are recognized as a liability when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Sick leave benefits are accumulated without limit for each employee. The employees do not gain a vested right to accumulated sick leave, therefore, accumulated employee sick leave benefits are not recognized as a liability of the District. The District's policy is to record sick leave as an

operating expense in the period taken. However, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

Long-Term Obligations

The District reports long-term debt of governmental funds at face value in the government-wide financial statements.

Net Pension Liability

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the California State Teachers' Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) plan for schools (Plans) and additions to/deductions from the Plan' fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value.

Deferred Inflows of Resources

Deferred inflows of resources represent an acquisition of net position by the District that is applicable to a future reporting period. These amounts are reported in the government-wide statement of net position.

Deferred Inflows – OPEB: The deferred inflows of resources related to OPEB benefits results from the difference between the estimated and actual return on OPEB plan investments. These amounts are deferred and amortized as detailed in Note 11 to the financial statements.

Deferred Inflows – Pensions: The deferred inflows of resources related to pensions resulted from the effects of actuarially-determined changes to the pension plan. These amounts are deferred and amortized as detailed in Note 12 to the financial statements.

Net Position

Net position represents the difference between assets plus deferred outflows of resources less liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvements of those assets. Net position is reported as restricted when there are limitations imposed on use through external restrictions imposed by donors, grantors, laws or regulations of other governments or by enabling legislation adopted by the District.

Fund Balance Classification

The governmental fund financial statements present fund balance classifications that comprise a hierarchy based on the extent to which the District is bound to honor constraints on the specific purposes for which amounts can be spent. The classifications used in the governmental fund financial statements are as follows:

Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact.

Restricted: Amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

Committed: Amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the District Board of Education. These amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same formal action (vote or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The District does not have any committed fund balances.

Assigned: Amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. The District Board of Education, through a formal action has given authority to the Superintendent or designee to assign amounts for a specific purpose that is neither restricted nor committed.

Unassigned: The residual fund balance for the General Fund and all other spendable amounts. The Unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts.

Spending Order Policy

The District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted net position or fund balance is available.

When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District's policy considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the District Board of Education has provided otherwise in its commitment or assignment functions.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Minimum Fund Balance Policy

The District has adopted a minimum fund balance policy in order to protect against revenue shortfalls and unexpected one-time expenditures. The District Board of Education recognizes that good fiscal management comprises the foundational support of the District. To make that support as effective as possible, the District Board of Education goal is to maintain a minimum balance of 5% of the District's general fund annual operating expenditures and transfers out.

If the fund balance drops below 5%, the goal is to restore the balance at a rate of 1% per year as funding is made available.

State Apportionments

Certain current year apportionments from the state are based upon various financial and statistical information of the previous year. Second period to annual corrections for local control funding formula and other state apportionments (either positive or negative) are recorded in the year computed by the State.

Property Taxes

Secured property taxes attach as an enforceable lien on property as of January 1st. Taxes are payable in two installments on November 1st and February 1st. Unsecured property taxes are payable in one installment on or before August 31st.

Real and personal property tax revenues are reported in the same manner in which the county auditor records and reports actual property tax receipts to the California Department of Education. This is generally on a cash basis. A receivable has not been recognized in the General Fund for property taxes due to the fact that any receivable is offset by a payable to the state for local control funding formula purposes. Property taxes for debt service purposes are not material and have, therefore, not been accrued in the Government-wide financial statements.

On-Behalf Payments

GAAP requires that direct on-behalf payments for fringe benefits and salaries made by one entity to a third party recipient for the employees of another, legally separate entity be recognized as revenue and expenditures by the employer government. The State of California makes direct on-behalf payments for retirement benefits to the State Teachers' Retirement System on behalf of all school districts in California. Additionally, during the fiscal year ended June 30, 2019, the State of California made additional one-time contributions to the State Teachers' Retirement System and to the California Public Employees' Retirement System. Contributions made during the fiscal year ended June 30, 2019 totaled \$2,518,460 and \$548,256, respectively. The amount of on-behalf payments made for the District has been recorded in the fund financial statements.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Contributed Services

Generally accepted accounting principles require that contributions of donated services that create or enhance non-financial assets or that require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation, are to be recorded at fair value in the period received. Although the District receives tremendous hours of volunteer time, it is not deemed necessary to record these hours on the books of the District based on the above guidelines.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Reporting Entity

The District is the level of government primarily accountable for activities related to public education. The governing authority consists of elected officials who, together, constitute the Board of Education.

The District considered its financial and operational relationships with potential component units under the reporting entity definition of GASB.

The basic, but not the only, criterion for including another organization in the District's reporting entity for financial reports is the ability of the District's elected officials to exercise oversight responsibility over such agencies. Oversight responsibility implies that one entity is dependent on another and a financial benefit or burden relationship is present and that the dependent unit should be reported as part of the other.

Oversight responsibility is derived from the District's power and includes, but is not limited to: financial interdependency; selection of governing authority; designation of management; ability to significantly influence operations; and accountability for fiscal matters.

Due to the nature and significance of their relationship with the District, including ongoing financial support of the District or its other component units, certain organizations warrant inclusion as part of the financial reporting entity. A legally separate, tax-exempt organization should be reported as a component unit of the District if all of the following criteria are met:

- The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the District, its component units, or its constituents.

**SAN MARINO UNIFIED SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2019**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- The District, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization.
- The economic resources received or held by an individual organization that the District, or its component units, is entitled to, or has the ability to otherwise access, are significant to the District.

Based upon the application of the criteria listed above, the following potential component units have been included in the District's reporting entity:

The San Marino Schools Foundation (the Foundation): Although the Foundation is a legally separate 501(c) 3 tax-exempt entity, it is reported in the financial statements using the discrete presentation method. The economic resources received or held by the Foundation are intended for the direct benefit of the District. The District Board of Education determines how the Foundation's annual contributions to the District are used. The Foundation also receives restricted donations and gifts for specific District or school purposes. During 2018-19, the Foundation contributed \$2,000,000 to the District to fund 21 teaching positions and \$1,669,145 for the construction of the Barth Athletics Complex. Separate financial statements for the Foundation are available through the San Marino Schools Foundation's office.

PARS Post-Employment Benefits Trust (the Trust): The Trust is a multi-employer irrevocable governmental trust pursuant to Section 115 of the Internal Revenue Code for the purpose of funding district post-employment benefits. The District offers post-employment benefits through a single-employer plan funded within the Trust. Public Agency Retirement Services (PARS), as the Trust Administrator, retains the responsibility to oversee the management of the Trust, including the Trust's requirement that investments and assets held within the Trust continually adhere to the requirements of the California Government Code Section 53622, that specifies; 1) that investments made are solely in the interest of the participants, 2) the investments are made with care and 3) there is diversification of investments so as to minimize risk. US Bank manages the investment of funds through established investment approaches and the San Marino Unified School District has the ability to direct investment decisions within this framework as they deem necessary. As such, the District acts as a fiduciary of the Trust. The financial activity of the Trust has been included in the financial statements of the District. The Trust does not issue a separate financial report.

The following potential component units have been excluded from the District's reporting entity:

Various PTA/PTSA and School Connected Organizations: Each of these types of organizations within the District were evaluated using the three criterion listed above. Each entity has been excluded as a component unit because the third criterion was not met in all cases; the economic resources received and held by the organizations individually are not material to the District's financial statements.

NOTE 2: BUDGETS

By state law, the District Board of Education must approve a budget no later than July 1, using the Single Adoption Budget process. In connection with the Local Control Funding Formula, school districts are required to engage parents, students and community members in developing a Local Control Accountability Plan (LCAP). The LCAP outlines a school district's goals as they relate to the eight state priorities, supporting actions and services, and how its budget will support its LCAP goals. Prior to a public hearing of a school district's budget, a separate public hearing of the school district's LCAP must be held. The LCAP and Proposed District Budget are then approved at the same meeting of the District Board of Education.

These budgets are revised by the District Board of Education during the year to give consideration to unanticipated income and expenditures. The original and final revised budget for the General Fund is presented in a budgetary comparison schedule in the required supplementary section.

Formal budgetary integration was employed as a management control device during the year for all budgeted funds. Expenditures cannot legally exceed appropriations by major object account.

NOTE 3: DEPOSITS AND INVESTMENTS

Deposits

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial risk. As of June 30, 2019, \$289,274 of the District's bank balance of \$789,274 was exposed to credit risk as follows:

<u>District's Bank Balance</u>	<u>June 30, 2019</u>

Investments

Cash in County

In accordance with Education Code Section 41001, the District is required to maintain substantially all of its cash in the Los Angeles County Treasury as part of the common investment pool. The District is considered an involuntary participant in the investment pool. These pooled funds are carried at amortized cost which approximates fair value. Fair value of the pooled investment at June 30, 2019 is measured at 99.90% of amortized cost. The District's deposits in the fund are considered to be highly liquid.

**SAN MARINO UNIFIED SCHOOL DISTRICT

NOTE 3: DEPOSITS AND INVESTMENTS

The County Treasurer is authorized to deposit cash and invest excess funds by California Government Code Sections 53534, 53601, 53635 and 53648. The County Treasurer is restricted to invest time deposits, U.S. government securities, state registered warrants, notes or bonds, State Treasurer’s investment pool, bankers’ acceptances, commercial paper, negotiable certificates of deposit, and repurchase or reverse repurchase agreements. The funds maintained by the County Treasurer are either secured by federal depository insurance or are collateralized. The County Treasurer investment pool is not required to be rated. Interest earned is deposited quarterly into participating funds. Any investment losses are proportionately shared by all funds in the pool. The County Treasurer investment pool is not registered as an investment company with the Securities and Exchange Commission (SEC) nor is it an SEC Rule 2a7-like pool. California Government Code statues and the County Board of Supervisors set forth the various investment policies that the Country Treasurer follow. The method used to determine the value of the participant’s equity withdrawn is based on the book value, which is amortized cost, of the participant’s percentage participation on the date of such withdrawals.

The pool sponsor’s annual financial report may be obtained from the Los Angeles County Public Affairs Office, Kenneth Hahn Hall of Administration, 500 W. Temple St, Room 358, Los Angeles, CA 90012.

PARS Post-Employment Benefits Trust Pooled Investment

Investments held by the PARS Post-Employment Benefits Trust (Trust) are limited to those within the terms of the trust agreement, any applicable plan documents and in accordance with California Code Section 53620 through 53622. The Trust adhered to the provisions of the investment policy during the fiscal year ended June 30, 2019.

Investment Valuation

Investments are measured at fair value on a recurring basis. Recurring fair value measurements are those that GASB require or permit in the statement of net position at the end of each reporting period. Fair value measurements are categorized based on the valuation inputs used to measurer an asset’s fair value. Fair value for the pooled investment has been determined using Net Asset Value per share (NAV). NAV is measured monthly based on the most recent bid and asking price of the underlying securities held in the pooled investment and reported based on the percentage participation at the end of each month. Investments can be redeemed without limitation as needed. There are no redemption notices and no unfunded commitments. The Trust’s investment fair value measurement at June 30, 2019 is presented below:

Investment	Net Asset Value (NAV)
Pooled Investment	\$ 830,808

NOTE 3: DEPOSITS AND INVESTMENTS

Interest Rate Risk

Interest risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The Trust has a formal investment policy that outlines specific strategies as a means of managing its exposure to fair value losses arising from increasing interest rates. The District selected a discretionary investment approach whereby the District directs the Trustee to invest the assets of the Trust pursuant to a specified investment strategy. To manage risk, each targeted investment strategy is monitored to achieve target asset allocations and diversification.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Trust authorizes the use of a broad range of investment choices that have distinctly different risk and return characteristics, with the provision that all investments must continue to adhere to the underlying requirements of California Government Code Section 53622.

Concentration of Credit Risk

Concentration of credit risk is the risk of a loss attributed to the magnitude of a government's investment in a single issuer. The Trust places no limit on the amount that may be invested in any one issuer. The District is exposed to concentration of credit risk whenever investments in any one issuer exceed 5%. Investments guaranteed by the U.S. government and investments in mutual funds and external investment pools are excluded from this requirement.

Liabilities are liquidated by the General Fund for governmental activities. General obligation bond liabilities are liquidated through property tax collections as administered by the County Controller's office through the Bond Interest and Redemption Fund. Certificates of Participation liabilities are liquidated through private donations, developer fees, and general fund resources if necessary. In addition, the Certificates of Participation may be liquidated with future general obligation bonds proceeds if approved by the voters.

NOTE 10: GENERAL OBLIGATION BONDS

On June 4, 1996, the voters approved the issuance of \$34,330,000 in bonds to finance the construction and renovation of school buildings and facilities and paying related costs. On August 20, 1996 the District issued Series 1996 A bonds in the amount of \$6,615,000. On June 16, 1998, the District issued Series B bonds in the amount of \$27,715,000. These represent the second and final series of bonds sold based on the 1996 Election Authorization. Interest on the Series B bonds is payable semiannually on January 1 and July 1 of each year with final maturity June 1, 2023. The bonds bear an interest rate ranging from 3.95% to 5.25%.

On June 20, 2000, the voters approved the issuance of \$18,000,000 in bonds to complete the financing of construction, modernization and renovation of school buildings and facilities. On August 31, 2000, the District issued Series 2000A bonds in the amount of \$17,999,808. The bonds consist of current interest bonds of \$9,750,000 fully maturing on July 1, 2016 and capital appreciation bonds of \$8,249,808 due through July 1, 2025. Capital appreciation bonds were issued as part of Series 2000A with maturity dates from July 1, 2017 through 2025. Prior to the

Interest rates range from 5.50% to 5.71% through July 1, 2025. Accreted interest accrued and included as an addition in the long-term debt schedule in 2018-19 is \$1,620,773 and the total accrued interest, net of payments is \$12,689,014. The first payment was due July 1, 2017.

On April 12, 2001, the District refunded Series 1996 A bonds, the first series of bonds sold within the 1996 Election Authorization. The bonds consist of current interest bonds in the amount of \$6,535,000. Interest due is payable semiannually on February 1 and August 1 of each year. The bonds bear an interest rate ranging from 3.00%-5.00%.

The District's bonds are not available for early redemption.

NOTE 11: CERTIFICATES OF PARTICIPATION

On March 1, 2017, the District entered into a long-term lease agreement to finance the construction of the Barth Athletics Complex at Huntington Middle School. The agreement is between the District as the "lessee" and the Los Angeles County Schools Regionalized Business Services Corporation as the "lessor" or "corporation". The Corporation is a legally separate entity which was formed in September 1985 to provide services necessary and appropriate for the establishment, operation and maintenance of regionalized business services and programs for public schools, community colleges and the Los Angeles County Board of Education.

The Corporation's funds for acquiring these items were generated by the issuance of \$ 6,370,000 of Certificates of Participation (COPs). COPs are long-term debt instruments which are tax exempt and, therefore, issued at interest rates below current market levels for taxable investments.

Lease payments are required to be made by the District under the lease agreement on May 15 and November 15 of each year for use and possession of the site for the period commencing December 1, 2017 and terminating December 1, 2041. Lease payments for years 2018 through 2021 are being funded by a private donor. Debt service is due on June 1 and December 1 of each year. Fixed interest rates range from 2.00 % to 5.00 % per certificate for the length of the issuance.

NOTE 12: POST EMPLOYMENT HEALTHCARE BENEFITS

Plan Description and Eligibility

The District administers a single-employer defined benefit healthcare plan (Retiree Benefits Plan). The plan provides health, dental, vision and life insurance benefits to certain employees, retirees and their spouses. Both certificated and classified employees who have completed 10 years of service are eligible to participate in the Retiree Benefits Plan by paying premiums similar to those charged for the District's active employees. For classified employees, coverage is limited to only those retirees under age 65 at the time of retirement and only until such time as the retiree reaches age 65. Participation is limited to classified employees who have held medical coverage during the 5 years immediately preceding their retirement.

Benefit provisions are established through negotiations between the District and the bargaining unions representing employees and are renegotiated each three-year bargaining period. The Retiree Benefits Plan does not issue a separate financial report.

Membership in the health benefit plan consisted of the following at June 30, 2018, the date of the latest actuarial valuation.

Retirees and beneficiaries receiving benefits	2
Active plan members	<u>312</u>
Total	<u>314</u>

NOTE 12: POST EMPLOYMENT HEALTHCARE BENEFITS

Funding Policy

The District's funding policy is to contribute the Annual Determined Contribution (ADC) to their account within the PARS Post-Employment Benefits Trust, an irrevocable trust (Trust). The District pays for the cost of the above 2 retirees who receive medical, dental and vision premiums under early retirement incentives offered in 2013, 2014 and 2016. For fiscal year ended 2019, the District paid \$34,622 for retiree premium costs. No contributions were made to the Trust during 2018-19.

Investments

Investment policy

The District's policy regarding the investment allocation of the District's plan assets is established and may be amended by District management. The primary objective is significant long-term growth of capital, subject to the risk and quality constraints set forth in the investment guidelines. The investment objective the District has selected is the US Bank Growth Multi Manger Strategy, which has a dual goal to provide growth with a low to moderate level of current income. The asset allocation ranges for this objective as of June 30, 2019 are listed as follows:

Asset Class	Asset Allocation	Long-term Expected Real Rate of Return
Equity and real estate	75%	7.75%
Fixed income and commodities	25%	4.50%

Investment Valuation

Investments are measured at fair value on a recurring basis. Refer to Note 3.

Rate of return

For the year ended June 30, 2019, the annual money-weighted rate of return on investments, net of investment expense, was 4.97 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts invested.

Actuarial Methods and Assumptions

Actuarial assumptions. The net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actual valuation as of June 30, 2018, rolled forward to June 30, 2019. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

<u>Actuarial Methods and Assumptions</u>	
Valuation date	June 30, 2018
Measurement date	June 30, 2019
Inflation	2.75%
Salary increases	2.75%
Investment rate of return	4.30%
Health care trend rate	4.00%
Interest assumption (Bond Buyer 20 Index)	3.50%

The mortality assumptions are based on the 2009 CalSTRS Mortality table for certificated employees/retirees and the 2014 CalPERS Active Mortality for Miscellaneous Employees table for classified employees. The retirement assumptions are based on the 2009 CalSTRS Retirement Rates table for certificated employees and the 2009 CalPERS Retirement Rates for School Employees for classified employees.

Actuarial assumptions used in the June 30, 2018 valuation were based on a review of plan experience during the period July 1, 2017 to June 30, 2018. The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. To achieve the goal set by the investment policy, plan assets will be managed to earn, on a long-term basis, a rate of return equal to or more than the target rate of return of 4.5 percent.

Discount Rate

The discount rate used to measure the total OPEB liability was 4.3 percent. The projection of cash flows used to determine the discount rate assumed that District contributions would be sufficient to fully fund the obligation over a period not to exceed 30 years. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Since the most recent valuation, the discount rate used to measure the total OPEB liability and expected rate of return on assets was changed from 4.50 percent to 4.3 percent.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2019, the District recognized OPEB expense of \$133,691.

At June 30, 2019, the District reported Deferred Outflows of Resources and Deferred Inflows of Resources related to OPEB from the following sources:

OPEB Deferred Outflows and Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Experience gains/losses	\$ 159,617	\$ -
Changes of assumptions	18,219	-
Investment gains/losses	-	26,736

The deferred outflows of resources resulting from the difference in actuarial assumptions and actual experience and the deferred outflows of resources resulting from a change of assumptions and is amortized over the expected average remaining service life (EARSL) of the plan participants. The EARSL for the OPEB plan for June 30, 2019 is 14.6 years. A year of amortization is recognized in OPEB expense for the year the gain or loss occurs. The remaining amount is deferred and will be amortized over the remaining periods not to exceed 13.6 years.

The deferred inflows of resources resulting from the net differences between projected and actual earnings on plan investments is amortized over a five year period on a straight-line basis. One-fifth is recognized in OPEB expense during the measurement period and the remaining amount is deferred and will be amortized over the remaining four-year period.

California State Teachers' Retirement System (CalSTRS)

Plan Description

The District contributes to the State Teachers' Retirement Plan (STRP) administered by the California State Teachers' Retirement System (CalSTRS). STRP is a cost-sharing multiple-employer public employee retirement system defined benefit pension plan. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers' Retirement Law.

NOTE 13: EMPLOYEE RETIREMENT PLANS

Benefits Provided

The STRP provides retirement, disability and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. The STRP is comprised of four programs: Defined Benefit Program, Defined Benefit Supplement Program, Cash Balance Benefit Program and Replacement Benefits Program. The STRP holds assets for the exclusive purpose of providing benefits to members and beneficiaries of these programs. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the state is the sponsor of the STRP and obligor of the trust. In addition, the state is both an employer and nonemployer contributing entity to the STRP.

The District contributes to the STRP Defined Benefit Program and STRP Defined Benefit Supplement Program, thus disclosures are not included for the other plans.

The STRP provisions and benefits in effect at June 30, 2019, are summarized as follows:

Provisions and Benefits	STRP Defined Benefit Program and Supplement Program	
	On or Before December 31, 2012	On or after January 1, 2013

Contributions

Required member, District and State of California contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. The contributions rates are expressed as a level percentage of payroll using the entry age normal actuarial method. The contribution rates for each plan for the year ended June 30, 2019 are presented above and the total District contributions were \$2,648,640.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for state pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District were as follows:

	Balance June 30, 2019
Proportionate Share of Net Pension Liability	
District proportionate share of net pension liability	\$ 27,572,100
State's proportionate share of the net pension liability associated with the District	15,786,394
Total	\$ 43,358,494

The net pension liability was measured as of June 30, 2018. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the state, actuarially determined. At June 30, 2018, the District's proportion was 0.0300%.

For the year ended June 30, 2019, the District recognized pension expense of \$3,118,061. In addition, the District recognized revenue and corresponding expense of \$1,854,545 for support provided by the state. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension Deferred Outflows and Inflows of Resources		
Pension contributions subsequent to measurement date	\$ 2,648,640	\$ -
Differences between expected and actual experience	85,500	400,500

Net differences between projected and actual earnings on pension plan investments	-	1,061,700
Total	\$ 7,953,886	\$ 3,522,356

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. The net difference between projected and actual earnings on plan investments is amortized over a five year period on a straight-line basis. One-fifth is recognized in pension expense during the measurement period and remaining amount is deferred and will be amortized over the remaining four-year period. The remaining net differences between projected and actual earnings on plan investments shown above represents the

unamortized balance relating to the current measurement period and the prior measurement periods on a net basis.

All other deferred outflows of resources and deferred inflows of resources are amortized over the expected average remaining service life (EARSL) of the plan participants. The EARSL for the STRP for the June 30, 2018 measurement date is seven years. The first year of amortization is recognized in pension expense for the year the gain or loss occurs. The remaining amounts are deferred and will be amortized over the remaining periods not to exceed six years.

The remaining amount will be recognized to pension expense as follows:

Year Ending June 30,	Amortization
2020	\$ 871,066
2021	473,266
2022	(250,186)

2024	542,196
2025	(4,050)
Total	<u>\$ 1,782,890</u>

Actuarial Methods and Assumptions

Total pension liability for STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2017, and rolling forward the total pension liability to June 30, 2018. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The financial reporting actuarial valuation as of June 30, 2017 used the following methods and assumptions, applied to all prior periods included in the measurement:

<u>Actuarial Methods and Assumptions</u>	
Valuation Date	June 30, 2017
Measurement Date	June 30, 2018
Experience Study	July 1, 2010 through June 30, 2015
Actuarial Cost Method	Entry Age Normal
Discount Rate	7.10%
Investment Rate of Return	7.10%
Consumer Price Inflation	2.75%
Wage Growth	3.50%

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are

**SAN MARINO UNIFIED SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2019**

NOTE 13: EMPLOYEE RETIREMENT PLANS

CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table, issued by the Society of Actuaries.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant and adopted by the CalSTRS Board in February 2017. The assumed asset allocation is based on board policy for target asset allocation in effect on February 2017, the date the current experience study was approved by the board. Best estimates of 20-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-term Expected Real Rate of Return
Global equity	47%	6.30%
Private equity	13%	9.30%
Real estate	13%	5.20%
Fixed income	12%	0.30%
Risk mitigating strategies	9%	2.90%
Inflation sensitive	4%	3.80%
Cash/liquidity	2%	-1.00%

Discount Rate

The discount rate used to measure the total pension liability was 7.10%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10%) and assuming that contributions, benefit payments, and administrative expense occurred midyear. Based on these assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

California Public Employees Retirement System (CalPERS)

Plan Description

Qualified employees are eligible to participate in the Schools Pool Plan under the California Public Employees’ Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the Public Employees’ Retirement Law.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor, and the member’s final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 5 years of service. The Basic Death Benefit is paid to any member’s beneficiary if the member dies while actively employed. An employee’s eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or 52 for members hired on or after January 1, 2013), and has at least 5 years of credited service. The cost of living adjustments for each plan are applied as specified by the Public Employees’ Retirement Law.

Required employee contribution rate	7.00%	7.00%
Required employer contribution rate	18.062%	18.062%

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Total plan contributions are determined through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contributions rates are expressed as percentage of annual payroll. The contribution rates for each plan for the year ended June 30, 2019 are as presented above and the total District contributions were \$1,500,534.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

As of June 30, 2019, the District reported net pension liabilities for its proportionate share of the CalPERS net pension liability totaling \$16,184,531. The net pension liability was measured as of June 30, 2018. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2018, the District's proportion was 0.0607%.

For the year ended June 30, 2019, the District recognized pension expense of \$2,996,476. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Net differences between projected and actual earnings on pension plan investments	132,749	-
Total	<u>\$ 4,310,236</u>	<u>\$ 742,397</u>

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. The net difference between projected and actual earnings on plan investments is amortized over a five year period on a straight-line basis. One-fifth is recognized in pension expense during the measurement period and remaining amount is deferred and will be amortized over the remaining four-year period. The remaining net differences between projected and actual earnings on plan investments shown above represents the unamortized balance relating to the current measurement period and the prior measurement period on a net basis.

All other deferred outflows of resources and deferred inflows of resources are amortized over the expected average remaining service life (EARSL) of the plan participants. The EARSL for the CalPERS Schools Pool Plan for the June 30, 2018 measurement date is 4.0 years. The first year of amortization is recognized in pension expense for the year the gain or loss occurs. The remaining amounts are deferred and will be amortized over the remaining periods not to exceed 3.0 years.

The remaining amount will be recognized in pension expense as follows:

<u>Year Ending June 30,</u>	Amortization
2020	\$ 1,334,361
2021	939,205
2022	(110,733)

Actuarial Methods and Assumptions

Total pension liability for the Schools Pool Plan was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2017, and rolling forward the total pension liability to June 30, 2018. The financial reporting actuarial valuation as of June 30, 2017 used the following methods and assumptions, applied to all prior periods included in the measurement:

**SAN MARINO UNIFIED SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2019**

NOTE 13: EMPLOYEE RETIREMENT PLANS

Actuarial Methods and Assumptions

Valuation Date	June 30, 2017
Measurement Date	June 30, 2018
Experience Study	July 1, 1997 through June 30, 2015
Actuarial Cost Method	Entry Age Normal
Discount Rate	7.15%
Investment Rate of Return	7.50%
Consumer Price Inflation	2.50%
Wage Growth	Varies by entry age and service

Mortality assumptions are based on mortality rates resulting from the most recent CalPERS experience study adopted by the CalPERS Board. For purposes of the post-retirement mortality rates, those revised rates include 15 years of mortality improvements using 90 percent of scale MP 2016 published by the Society of Actuaries.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Assumed Asset Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Global equity	50%	5.98%
Fixed income	28%	2.62%
Private equity	8%	7.23%
Real assets	13%	4.93%
Liquidity	1%	-0.92%

Discount Rate

The discount rate used to measure the total pension liability was 7.15% and reflects the long-term expected rate of return for the Schools Pool Plan net of investment expenses and without reduction for administrative expenses. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Based on these assumptions, the Schools Pool Plan fiduciary net

NOTE 13: EMPLOYEE RETIREMENT PLANS

position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District’s proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount Rate	Net Pension Liability
1% decrease (6.15%)	\$ 23,563,903
Current discount rate (7.15%)	16,184,531
1% increase (8.15%)	10,062,285

Changes of Assumptions

During the fiscal year of the measurement date of June 30, 2018, the CalPERS Board adopted new mortality assumptions for the plan. The new mortality table was developed from the December 2017 experience study and includes 15 years of projected ongoing mortality improvement using 90 percent of scale MP 2016 published by the Society of Actuaries. The inflation assumption is reduced from 2.75% to 2.50%. The assumptions for individual salary increases and overall payroll growth are reduced from 3.00% to 2.75%. Deferred outflows of resources for changes of assumptions represents the unamortized portion of this assumption change.

Plan Fiduciary Net Position

Detailed information about CalPERS Schools Pool Plan fiduciary net position is available in a separate comprehensive annual financial report. Copies of the CalPERS annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, CA 95814.

NOTE 14: PARS SUPPLEMENTARY RETIREMENT PLANS

On October 25, 2016, the Board of Education adopted a resolution for the implementation of an early retirement incentive known as PARS Supplementary Retirement Plan for classified non-management employees. A total of 8 employees are participating. The District was scheduled to pay benefits from 2018 through 2022 totaling \$318,955. The District has prepaid these costs and has fully paid the incentive obligation at June 30, 2019.

NOTE 15: PARCEL TAX

Measure R

Measure R is a qualified special parcel tax levied by the District each year for six years with exemption for parcels owned and occupied by persons age 65 or older and contiguous parcels. The special assessment is adjusted annually by the Los Angeles Metropolitan Statistical Area Consumer Price Index for a six year term. The revenues raised by the Measure are used to attract and retain high quality teachers and employees, and support educational programs that enhance student achievement. The tax was collectible beginning July 1, 2013. The current rate as of July 1, 2018 was \$366.40 per parcel. On February 26, 2019, the District voters approved the renewal of Measure R.

Measure E

On March 10, 2015, the District voters approved the renewal of Measure E. This Measure is a qualified special parcel tax levied by the District each year for six years with exemption for parcels owned and occupied by persons age 65 or older and contiguous parcels. The special assessment is adjusted annually by the lesser of the County of Los Angeles Statistical Area Consumer Price Index or three percent. The revenues raised by the Measure are used to support outstanding classroom teachers and solid academic curriculum, maintain advanced placement and honors classes, arts and athletic programs, technology, and preserve smaller class sizes throughout the District. The tax was collectible beginning July 1, 2015. The current rate as of July 1, 2018 was \$926.94 per parcel.

NOTE 16: JOINT POWERS AGREEMENTS

The San Marino Unified School District participates in agreements with three joint powers authorities (JPA) entities. The West San Gabriel Valley Schools' Liability and Property (WSGLP), the West San Gabriel Valley Schools' Workers' Compensation (WSGWC), and the California Schools Employee Benefits Association (CSEBA). The San Marino Unified School District pays an annual premium commensurate with the level of coverage requested.

Each JPA is governed by a board consisting of a representative from each member district. Each governing board controls the operations of its JPA independent of any influence by the San Marino Unified School District beyond the District's representations on the government boards.

Each JPA is independently accountable for its fiscal matters. Budgets are not subject to any approval other than that of the respective governing boards. Member districts share surpluses and deficits proportionately to their participation in the JPA. Separate financial statement for each JPA may be obtained from the respective entity.

NOTE 16: JOINT POWERS AGREEMENTS

The relationship between the San Marino Unified School District and the JPAs are such that none of the JPAs are a component unit of the District for financial reporting purposes. The District's equity share and safety credit in the JPAs and the condensed most readily available financial information of the WSGLP, WSGWC, and CSEBA JPAs are shown below.

NOTE 17: COMMITMENTS AND CONTINGENCIES

Litigation

The District is involved in claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the District's financial statements.

State and Federal Allowances, Awards, and Grants

The District has received state and federal funds for specific purposes, including reimbursement of mandated costs, which are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursement will not be material.

Purchase Commitments

As of June 30, 2019, the District was committed under various capital expenditure purchase agreements for construction and modernization projects totaling approximately \$1.8 million. Projects will be funded through certificates of participation proceeds, Capital Facilities Funds, Capital Project Funds, and local donations.

NOTE 18: SAN MARINO SCHOOL FOUNDATION CONDENSED DISCLOSURES

Organization and Summary of Significant Accounting Policies

Description of the Reporting Entity

The San Marino Schools Foundation (the “Foundation”) is a not-for-profit corporation that sponsors benefits and solicits funds from the public for the exclusive use of the San Marino Unified School District (“District”). The Foundation is governed by a Board of Trustees (the “Board”), which is responsible for all activities of the Foundation, including approval of disbursements to the District.

Cash and Equivalents

Cash investments purchased with maturities of less than three months at the date they are acquired are considered cash equivalents.

The Foundation has cash in a financial institution which is insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. The Foundation also has some credit risk through short term cash investments which are placed with a high quality financial institution that is not insured by the FDIC but is a member of Securities Investor Protection Corporation (SIPC). At various times throughout the year, the Foundation may have cash balances in these financial institutions which exceed the FDIC and other insured limits. The Foundation has not experienced any losses on deposits of cash or cash equivalents.

Beneficial Interest in Assets held by the California Community Foundation

The Foundation’s total endowment is \$3,919,453. This fund is held by the California Community Foundation (CCF) in their Permanent Pool. CCF will only distribute funds to the Foundation upon the request of the Foundation.

Property and Equipment and Depreciation

Acquisitions of property and equipment of \$5,000 or more are capitalized. The Foundation’s property and equipment, consisting principally of computers and furniture, are recorded at cost and depreciated using the straight-line method over the five-year estimated useful life of the assets.

Net Assets

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor or grantor-imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

**SAN MARINO UNIFIED SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2019**

NOTE 18: SAN MARINO SCHOOL FOUNDATION CONDENSED DISCLOSURES

Net Assets without Donor Restrictions – Net assets available for use in general operations and not subject to donor restrictions.

Net Assets with Donor Restrictions – Net assets subject to donor-imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. Donor imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

Revenue and Revenue Recognition

Revenue is recognized when earned. Contributions are recognized when cash or other assets is received.

Donated Services and In-Kind Contributions

Volunteers contribute significant amounts of time to the Foundation’s program services, administration, and fundraising activities; however, the financial statements do not reflect the value of these contributed services because they do not meet recognition criteria prescribed by generally accepted accounting principles. The Foundation records donated professional services at the respective fair values of the services receives. No significant services were received during the years ended June 30, 2019 and 2018, respectively.

The Foundation received donated office space from the San Marino Unified School District. This contribution is recognized as revenue and a corresponding expense in the amount of the estimated fair market value of the contribution. Fair value of donated rent was \$18,000 for the year ended June 30, 2019.

Income Taxes

The Foundation is organized pursuant to the General Nonprofit Corporation Law of the State of California. The Foundation is exempt from federal income taxes under Section 501(c) (3) of the Internal Revenue Code and Section 23701(d) of the California Revenue and Taxation Code. The Foundation is also exempt from California franchise taxes and certain general county real and personal property taxes.

The Foundation has been classified as an organization that is not a private foundation under IRC Section 509(a) and, as such, contributions to the Foundation qualify for deduction as charitable contributions.

**SAN MARINO UNIFIED SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

NOTE 18: SAN MARINO SCHOOL FOUNDATION CONDENSED DISCLOSURES

The Corporation's Form 990, *Return of Organization Exempt from Income Tax* are subject to examination by the Internal Revenue Service, generally for three years after they were filed. Similarly, the Corporation's Form 199, *California Exempt Organization Annual Information Return*, are subject to examination by the Franchise Tax Board, generally for four years after they were filed.

Employee Benefits

The Foundation sponsors a Simplified Employee Pension Individual Retirement Arrangement (SEP IRA). Under this plan, the employer must make either a (1) matching contribution or (2) nonelective contribution. During the years ended June 30, 2019 and 2018, the Foundation made nonelective contributions in the amount of 5% of each employee's salary. Total employer contributions for the year ended June 30, 2019 and 2018, were \$6,953 and \$4,315, respectively.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities, at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Beneficial Interest in Assets Held by California Community Foundation

Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC") 958-205-45 *Donor Restricted Endowment Fund* requires net asset classifications of funds subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act ("UPMIFA"), and enhanced disclosures for all endowment funds.

The Foundation has interpreted the law as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment fund absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation retains in perpetuity (a) the original value of initial and subsequent gift amounts donated to the Endowment and (b) any accumulations to the endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added.

The Foundation has adopted investment and distribution policies for endowment assets that attempt to provide acceptable long-term returns and protect the principal from inflation while assuming a moderate level of investment risk.

NOTE 18: SAN MARINO SCHOOL FOUNDATION CONDENSED DISCLOSURES

Recent Accounting Pronouncements

In August 2016, the Financial Accounting Standards Board (“FASB”) issued ASU 2016-14, *Not-for-Profit Entities (Topic 958), Presentation of Financial Statements of Not-for-Profit Entities*, which revises the not-for-profit financial reporting model. ASU 2016-14 provides for additional disclosure requirements and modifies net asset reporting. The Foundation adopted the new guidance effective July 1, 2018 and applied the changes retrospectively. Implementation of this guidance resulted in a change in presentation of net assets and additional disclosures surrounding the Foundation’s liquidity and availability of financial assets.

Liquidity and Availability

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the balance sheet date, are approximately \$3.6 million for 2019.

Fair Value Measurement

The Foundation’s beneficial interest in assets held by the California Community Foundation is reported at fair value on a recurring basis. The fair value of the assets is determined by reference to quoted market prices and other relevant information generated by market transactions (Level 1 inputs within the fair value hierarchy) as of June 30, 2019.

Functional Expenses

The financial statements report certain categories of expenses that are attributed to more than one program or supporting function. Therefore, expenses require allocation on a reasonable basis that is consistently applied. Such expenses are allocated on the basis of estimates of time and effort.

Donations to SMUSD

Traditionally, the Board commits to an annual pledge to the District. The pledge was \$2,000,000 for the year ended June 30, 2019. In the past the Foundation would fund to the District the greater of the annual pledge or the net proceeds from each year’s Annual Campaign (defined as total Annual Campaign receipts less total Foundation operating expenses incurred during the same corresponding fiscal year). Currently the Foundation disburses funds to the District through a grant-making process. The Annual Campaign pledge supports teaching positions. Excess amounts over the Annual Campaign pledge can be considered for other district programs. Authorized distributions to the District, including any net proceeds in excess of the annual pledge, are paid by the Foundation to the District after the District submits a grant application,

the Foundation’s grant committee reviews and recommends a position, and the Foundation’s Board of Trustees adopts the committee’s recommendations. The Foundation authorized disbursements to the District of \$2,000,000 during the year ended June 30, 2019, of which \$0 remained unpaid at June 30, 2019.

Net Assets With Donor Restriction

Net assets with donor restriction are restricted for the following purposes:

<u>Net Assets With Donor Restriction</u>	<u>2019</u>
Bath Athletic Center	\$ 153,653
Scholarship (endowment fund)	135,025
Beneficial interest in assets held by community foundation	1,142,250
Other programs	<u>97,113</u>
Total	<u>\$ 1,528,041</u>

Endowment

The Foundation’s endowment includes donor-restricted funds of \$1,277,275 and \$2,642,178 of endowment funds.

In accordance with an enacted version of the Uniform Prudent Management of Institutional Funds Act (“UPMIFA”), the Foundation classifies its net assets as follows. Permanently restricted net assets consist of (a) the original value of gifts donated to the permanent endowment, and (b) the original value of subsequent gifts to the permanent endowment. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the San Marino Schools Foundation Endowment Distribution Policy.

The Foundation has adopted investment and distribution policies for endowment assets that attempt to provide acceptable long-term returns and protect the principal from inflation while assuming a moderate level of investment risk. To satisfy its long-term objectives, a substantial portion of the endowment assets are invested with the California Community Foundation’s Permanent Pool.

The Foundation has a current policy of accumulating funds in the Endowment Fund until the principal amount of two million dollars (\$2,000,000) is reached, after which investment income may be distributed annually from the Endowment Fund to the District. No amounts have yet been appropriated for distribution from the endowment fund.

SAN MARINO UNIFIED SCHOOL DISTRICT

NOTES TO THE SUPPLEMENTARY INFORMATION For the Fiscal Year Ended June 30, 2019

NOTE 1: PURPOSE OF SCHEDULES

Schedule of Average Daily Attendance (ADA)

Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

Schedule of Instructional Time

The District has met or exceeded its target funding. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of Education Code Sections 46207 through 46208.

Schedule of Expenditures of Federal Awards

Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the District under programs of the federal governmental for the year ended June 30, 2019. The information in this Schedule is presented in accordance with the requirements of the Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The District did not use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Schedule of Financial Trends and Analysis

The *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* requires that this schedule be prepared showing financial trends of the general fund over the past three fiscal years as well as the current year budget. This report is intended to

SAN MARINO UNIFIED SCHOOL DISTRICT

**NOTES TO THE SUPPLEMENTARY INFORMATION
For the Fiscal Year Ended June 30, 2019**

NOTE 1: PURPOSE OF SCHEDULES

identify if the District faces potential fiscal problems and if they have met the recommended available reserve percentages.

Schedule of Charter Schools

The *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* requires that this schedule list all charter schools chartered by the District and inform the users whether or not the charter school information is included in the District's financial statements.

Reconciliation of Annual Financial and Budget Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balances of all funds as reported on the annual Financial and Budget Report form to the audited financial statements.

OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE

Board of Education
San Marino Unified School District
San Marino, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of San Marino Unified School District (the District), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 13, 2019. Our report includes a reference to other auditors who audited the financial statements of the discretely presented component unit, as described in our report on the District's financial statements. The financial statements of the discretely presented component unit were not audited in accordance with *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency or a combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major Federal Program

We have audited San Marino Unified School District's (the District) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2019. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE
FOR EACH MAJOR FEDERAL PROGRAM; AND REPORT ON
INTERNAL CONTROL OVER COMPLIANCE REQUIRED

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance, for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

INDEPENDENT AUDITORS' REPORT ON STATE COMPLIANCE

Board of Education
San Marino Unified School District
San Marino, California

We have audited the San Marino Unified School District's (the District) compliance with the types of compliance requirements described in the *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel for the year ended June 30, 2019. The District's state compliance requirements are identified in the table provided.

Management's Responsibility

Management is responsible for compliance with the state laws and regulations as identified below.

Auditors' Responsibility

Our responsibility is to express an opinion on the District's compliance based on our audit of the types of compliance requirements referred to below. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the specific areas listed below has occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion on state compliance. However, our audit does not provide a legal determination of the District's compliance.

INDEPENDENT AUDITORS' REPORT ON STATE COMPLIANCE

Opinion on State Compliance

In our opinion, the District complied with the laws and regulations of the state programs referred to above in all material respects for the year ended June 30, 2019.

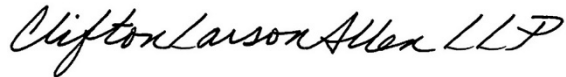

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with the *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel, and which is described in the accompanying schedule of findings and questioned costs as item 2019-001. Our opinion on each state program is not modified with respect to these matter.

The District's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report on state compliance is solely to describe the results of testing based on the requirements of the *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel. Accordingly, this report is not suitable for any other purpose.

STATE COMPLIANCE FINDING

Finding 2019-001 – Unduplicated Local Control Funding Formula Pupil Counts **40000**

Criteria: Education Code Section 42238.02(b)(2) requires a school district to submit its enrolled free and reduced-price meal eligibility, foster youth and English Learner (EL) pupil-level records for enrolled pupils using the California Longitudinal Pupil Achievement Data System (CalPADS). The CalPADS reports should accurately report the number of students as identified above.

Condition: 20 students in our sample were classified in the CalPADS report as EL after the student had been evaluated and/or met the criteria to be reclassified from EL status.

Effect: The District is not in compliance with Education Code section 42238.02 (b) (2). The 1.17 report contained errors as follows:

**SCHEDULE OF FINDINGS AND QUESTIONED COSTS
SUMMARY OF AUDITOR RESULTS**

June 30, 2019

Cause: The District did not follow procedures during the period to properly evaluate, update and reconcile the internal student tracking system for EL status of students. This resulted in errors in the reporting of EL students.

Questioned Costs: 20 students of the sampled population of 44 students tested, who had been evaluated for EL status, were found to be inaccurately reported. The error rate was extrapolated which resulted in an estimated 94 error count over the total population of students in EL status. Correction of these errors in the CalPADS system will result in a decrease to principal apportionment in the estimated amount of \$51,777.

Recommendation: We recommend the District adopt procedures to ensure verification of EL status in the reporting system occurs in a timely manner, and that accountability systems be implemented to ensure that the reporting is completed accurately.

District Response: As of June of 2019, the San Marino Unified School District has implemented new processes and procedures to effectively manage all required data to ensure the District is in compliance with Education Code section 42238.02 (b) (2). All District English Language Development teachers and aides have been trained in all aspects of the District's English Learner (EL) Master Plan. All students are initially enrolled via our District registrar/community liaison. The Executive Director of Curriculum and Instruction (EDCI) then searches the California Longitudinal Pupil Achievement Data System (CALPADS) for the student's EL data. If no student exists in CALPADS, the EDCI indicates the student's English Learner level is to be determined (TBD) in the District's student information system (SIS). The ELD teacher for the school the student is enrolled, is then informed by the EDCI fo the student's enrollment and need to assess with the Initial ELPAC. The ELD teacher completes the assessment within the first day of enrollment. Scores for the student are placed on the shared Google document and sent to the District Office in hard copy. The EDCI enters the scores in the ELPAC LST. The student's updated EL level is recorded in the SIS which is subsequently uploaded to CALPADS. In February and March, EL students are assessed using the Summative ELPAC. Students earning an overall score of 4, an oral language score of four (4), a written language level of four (4) and a level 3 for at least 3 of 4 subscores in reading, writing, listening and speaking, and a level three (3) or higher on the English Language Arts/Literacy portion of the CAASPP are considered for redesignation. Students who did not take the CAASPP are provided an alternative assessment per EC Section 313 (f) (4). Each ELD teacher at each school is informed of the students who have met the criteria by the EDCI. The ELD teachers hold parent meetings regarding redesignation and discontinuation of designated services. Once agreed, the student is indicated as redesignated fluent English proficient (RFEP) in the SIS. This data is then uploaded to CALPADS for the next state scheduled submission.
