

P.T. Affiliates Presents...

Super Summer 2010

Summer Session: K-8

LOCATION:

Huntington Middle School

DATES:

June 14 – July 23

STUDENTS:

Kindergarten
through Grade 8

Summer School Office:

Huntington Middle School
1700 Huntington Dr.
San Marino, Calif. 91108

Before June 14:

Questions: (626) 299-7047

After June 14:

Questions: (626) 299-7060 Ext. 2,
Report absences to (626) 299-7060 Ext. 1

**Registration materials included
in this packet:**

- Registration Information
- Registration Instructions
- Registration Form
- Schedule of Classes
- Class Descriptions

San Marino P.T. Affiliates
Summer School Program 2010
Elementary Program – Grades K – 8
Registration Instructions

In-order for registration to be processed, registration forms must be thoroughly completed. If any information is missing, registration forms will NOT be processed and your student will NOT be registered.

**STUDENT
INFORMATION**

- PRINT the student's LAST name, FIRST name, and his/her age.
- List the grade that the student will enter in August 2010.
- Enter the street address, city, zip code, and home phone number.
- Enter the names and phone numbers of the student's father and mother (or guardian [in case of the need for contact during the day]) and fill in the emergency medical authorization information.
- Note on the upper right hand corner VACATION DATES student will be absent.
- For student safety, please report absences first thing in the morning to (626) 299-7060 Ext. 1.

**COURSE
SELECTION**

- Enter the requested information: the class title, class period, and applicable material fees.
- Class descriptions include the grade level that the child will enter in August 2010.
- Applications will be prioritized based on the postmark and date of receipt; therefore, please select an alternate time or alternate course in case your first choice has been filled at the time your application is processed.

**MAILING THE
REGISTRATION**

- Mail the registration form together with your check made payable to P.T. Affiliates.
- Be sure to include material fees as required (see class descriptions).
- Be sure to print a copy and keep for your records.
- Mail-in registration must be postmarked by May 17, 2010.
- Send registration materials to:
K-8 P.T. Affiliates
% San Marino High School
2701 Huntington Dr.
San Marino, Ca. 91108

QUESTIONS?

- Call P.T. Affiliates Summer School at:
Before June 14 (626) 299-7047
After June 14 (626) 299-7060 Ext. 2
- For student safety, please report absences (626) 299-7060 Ext. 1

Mail-in registration must be postmarked by May 17, 2010

YOUR CHECK MUST BE MADE PAYABLE TO P.T. Affiliates.

Be sure to include applicable materials fees – see class listings

ANCIENT GREECE AND ROME

In this class we will explore six myths through reading, writing, and many projects involving art, crafts, and cooking. We will even have our own Olympics! Grades 3-4 Materials Fee: \$10.00

ART EXPLORATION

This is a class designed to explore the many different medias of art. Students will increase their knowledge and skills to be able to better express the creative person inside. A professional artist and art teacher teaches this class. This class uses simple and easy to understand instruction. Students will be given the tools to accomplish more than they think they can. Grades 2-4 and 5-8 Materials Fee: \$30.00

ARTS AND LITERATURE

From a Book to Film! Students will compare and contrast works of children's literature through print and media. They will focus on theme, plot development, and character analysis. We will use both novels and picture books, animated and non-animated films. Students will hone both their writing skills and critical thinking abilities while covering several state standards. So, if you see a future in being a book or film critic, this is the class for you! Grades 2-5 Materials Fee: \$15.00

BASEBALL FUN

Do you love baseball and video games? Then Baseball Fun is for you. This course will put the FUN in FUNdamentals as each player will get direct instruction from San Marino High School's Hitting Coach, John Gulick. In addition, you'll also learn the game of baseball by playing baseball video games on both the Wii and the PlayStation. It's like a summer of playing baseball and video games. Parents will be required to sign a wavier of indemnification and release from liability form that will be distributed on the first day of class. Grades 4-6 Materials Fee: \$5.00

BASIC HAND SEWING and MUCH MORE!

So you want to learn to sew and make fun and exciting projects? Learn the "language" of sewing by first learning how to hand stitch! This class will teach students how to learn the 12 hand sewing stitches by making their own samplers and independent projects. (Basic stitches will include: running, whipped running, blanket, stem, chain, cross, fly, satin and vertical hem) Some other projects that students may enjoy making are, Bean Bag Bear Crafts, Flannel Crafts, and Latch Hook Rug Making. Sewing is a way to learn hand-eye coordination, safety, sharing, decision-making, confidence and patience. Hand sewing rewards the child with a feeling of accomplishment and a completed project. While making these projects, your child will also be making a project to donate to a Local Children's Charity! Come join us and learn a skill that can be used for a lifetime. Grades 4-5 Materials Fee: \$40.00

BEGINNING GUITAR

Want to learn that song from "Juno"? Would you like to learn how to write your own songs on the guitar? Sign up for Beginning Guitar this summer and do just that! Bring your own guitar and learn how to play chords, strumming patterns, the fundamentals of finger picking, as well as several popular songs. Grades 6-8 Materials Fee: \$10.00

BOOKMAKER'S SHOP

Bookmaker's Shop is a class designed for 1st, 2nd and 3rd grade students to embark on a fun and educational journey through the enrichment of Language Arts, their own imagination and intellect. The concept is to have each student develop an understanding of the structure of a book (i.e. title page, table of contents), arrangement of a story, composition, organization of writing, and creativity through their artistic interpretation of their own original stories. Each week the students are to prepare a portion of their book that will encompass a provided vocabulary list, and illustrate it themselves. At the end of the summer, the students will have a self-bound keepsake for themselves and their families! Grades 1-3. Materials Fee: \$40.00

COMPUTER APPLICATIONS

Why not take this summer to practice and learn new computer skills? In Computer Applications we'll be working on typing, word processing and fun projects involving a variety of popular and useful programs. Grades 2-4 and 5-8

COOKING FOR KIDS

In this class we will: create recipes, learn about measurements, food safety and sanitation, basic table manners and explore the food guide pyramid in relationship to food preparation. Students will work together to create tasty treats like fruit salads, green salads, smoothies, fruit juices, quesadillas, pasta, pizza pockets, rice, omelets, hamburgers, cookies, brownies, trail mix and much more! Each week we will focus on a different dish each day, starting with an appetizer at the beginning of the week, and culminating on Fridays with a tasty dessert! Creations will also include an international flair and the inclusion of some vegetarian dishes. Students will create a recipe book and an apron to keep for future cooking. The end of the class will culminate in a presentation of dishes served by the students to family and friends. Possible field trips include: excursions to local farmer's markets, ethnic supermarkets, a local restaurant and a tour of Le Cordon Bleu culinary school. This class will certainly delight taste buds and inspire a love of cooking. This class is not recommended for students with dairy and/or food allergies. This class is definitely hands-on. Students will be encouraged to try everything, at least once! Students, under close supervision, will be handling food equipment and raw meats. Students will be surveyed about their favorite foods and every effort will be made to accommodate some of their recipe choices. This class is not being advertised as an organic cooking class. Grades 2-5 Materials Fee: \$150.00

ELD "ONE ROOM SCHOOL HOUSE"

Individualized ELD (ESL) instruction for Beginners and Intermediate English Learners will include one on one and small group instruction. The "family" setting will be led by one of SMUSD's experienced ELD teachers. English skills will be built in Listening, Speaking, Reading and Writing. The course will include writing book reports, movie reviews, playing games, and workbook skill practice. The "one Room School House" will encourage and help students to improve their English skills in a friendly atmosphere. Past experience suggests your English will improve greatly! Grades 2-8 Materials Fee: \$10.00

FUN WITH 3D

This class introduces students to various aspects of 3-dimensional art through hands-on projects and art exploration. Students will learn about famous 3D artists such as Michelangelo, Rodin, and Picasso. Students will create many different forms of art using papier-mâché, wire, clay, and plaster. Examples of some of the projects students will create are wire sculptures, coil vases out of clay, papier-mâché dolls, and abstract sculptures out of plaster. Grades 7-8 Materials Fee: \$20.00

GRAMMAR GREMLINS

This is a remedial grammar course designed to help students struggling with grammar concepts or students who wish to practice grammar skills in preparation for their next academic year. Grades 6-8 Materials Fee: \$20.00

HIP HOP DANCE CREW

Do you like to move it move it? If you have some serious dance skills or just like to get down and learn some new moves....then enroll in "Huntington's Hip Hop Dance Crew!" This course will introduce students to contemporary hip-hop dance technique. Students will demonstrate hip-hop dance skills through warm-ups and teacher/student developed choreographed routines. Choose your favorite tunes and cut your own music to dance to. If you don't want to be a couch potato all summer and want to have fun while getting into shape this summer....then this dance crew is for you! Daily physical activity will help you lead a well-balanced, healthy lifestyle. Middle school girls and boys are encouraged to enroll so get a MOVE ON IT! Grades 6-8

INTRODUCTION TO SPANISH

Students will be introduced to basic concepts of Spanish language, culture and the geography of Spanish speaking countries. When students are finished with this summer course they will know how to introduce themselves and others, the greetings, the days of the week, months of the year, colors, basic shapes, sizes and other vocabulary words that would be considered essential for a basic conversation in Spanish. Jr High school students who take this summer class will have the benefit of exposure comparable to that of the regular introduction to Spanish course presented during the regular school year. Students will learn through songs, coloring, and project making. The class is fun and students leave with real hands on knowledge that is useful on a daily basis. Grades 6-8 Materials Fee: \$5.00

MATH ESSENTIALS

For the 4th or 5th grade student, this course will focus upon a review of major math concepts- multiplication, division, fractions, decimals, and beginning algebra and geometry. Also included are problem solving skills, creative math games of logic and puzzlers, as well as word problems and test-taking strategies. Grades 4-5

MATH PREPARATION for SIXTH GRADE

This 6th grade math teacher will get your child on the mathematical treadmill and ready for the math curriculum in sixth grade. We will be toning up their skills and review lessons taught in the 1st quarter to give your child confidence for the new school year. Concepts that will be taught are: Order of Operations, Powers, Exponents, Fractions, Decimals, Prime Factorization, GCF, LCM, Distributive Property, etc. A math test will be administered each Friday to assess student understanding. Grade 6

MATH PUZZLER

Enjoy unlocking the secrets of mathematics through puzzles, riddles, brainteasers, applications, and investigations. This course is designed to assist students in the mastery of mathematical concepts necessary for success in middle school mathematics. An emphasis will be placed on understanding the HOW and WHY behind the essential concepts, processes, formulas, and methods. Students will use a variety of computer applications to practice individual skills. Students will have the opportunity to develop and run a cotton candy business. Additional puzzles, riddles, and investigations will be provided for the students to continue their exploration at home. This course is specifically designed to benefit students entering 7th or 8th grade pre-algebra, or an introductory algebra course. This course would also be appropriate for highly motivated students entering advanced or GATE 6th grade math in August 2010. Grades 6-8

MODEL BUILDING

Model Building ...5-4-3-2-1-Blast off !!! into the world of model building. GIRLS and BOYS learn to read, interpret, and follow directions in a hands-on activity that captures their imagination. Model building provides immediate feedback while successfully following steps, it provides opportunities on effective trouble-shooting strategies when a mistake has been discovered, and allows students to feel a sense of satisfaction when a long-term project has been accomplished. Students will provide their own model kits and materials. Models can be purchased in a wide variety of scales and types. Everything from actual flying rockets to Columbus's Santa Maria...from Henry Ford's Model-T to a 2010 Corvette...from a WWI tri-plane to the Space Shuttle...the choices are endless. Have your child learn a hobby in summer school that can take her/him away from the TV and the video game screen. Grades 4-8

MOVIE MADNESS

This course involves reading a book that has been adapted into a movie. Students will then watch the movie, discuss plot and changes made to the plot. They will compare and contrast the book and the movie, a great skill to learn for future English courses. Students will learn about the elements of plot, note-taking skills, and

read some great books, not to mention watch some awesome movies as well. Grades 6-8 Materials Fee: \$20.00

NATURE OF THINGS

Students will develop a love for nature through observation and hands on exploration. We'll study the animal kingdom and life cycles, the ecosystem, plant and animal interdependence, rock formation, and the natural processes on Earth. Students will gain a better understanding of our magnificent planet and hopefully become the future's environmentalists! Grades 2-5 Materials Fee: \$15.00

POWER READING AND VOCABULARY

This class is designed for students, grades six through eight, who are already proficient readers (students who read at or above 6th grade level). In this course students will learn strategies that will help them to increase their reading rate while maintaining a high level of comprehension. A second focus of the class is vocabulary building. Students will study different families of words that will help to increase the range and maturity of their reading, speaking, and written vocabulary. Each day students will start with a reading drill. A simple formula is used to determine reading rate, which is recorded on each student's individual reading record. A variety of strategies, such as paced reading, and other speed-reading techniques, will be employed to teach students to read faster. At each step of the way, student comprehension is checked. Students progress to the next level only after they are able to demonstrate that comprehension is mastered at the previous level. The vocabulary component of the program presents different groups of words that students explore in a variety of ways to achieve mastery of the words and their often multiple meanings. Grades 6-8

READERS THEATER

Readers Theater is an enjoyable activity that allows students to experience stories in a supportive, non-threatening environment. Communication skills are enhanced as children become aware of voice projection and accurate pronunciation of words. This class will provide an opportunity for students to increase comprehension, improve writing skills, challenge creativity, improve oral presentations, and finally, increase the student's enjoyment and understanding of literature. This class meets State and National Standards and will be a great learning environment for all to excel! Grades 4-5 Materials Fee: \$5.00

SCIENCE SMORGASBORD

Science Smorgasbord is guaranteed to satisfy the appetite of all hands-on science learners! Students will cover one topic per week in the following areas: Magnetism and electricity, engineering through bridge building, solar power, cooking chemistry, aerodynamics, and crime lab chemistry. Highlights include constructing a solar car, building electric circuits and motors, constructing toothpick bridges, and making homemade ice cream. Our class will conclude with an aerial competition with five categories that will test each student's engineering skills. Grades 5-8 Materials Fee: \$40.00

SO YOU WANT TO BE A STAR!

If you want to act just for the fun of it, to improve your self-confidence and communication skills, or if you have stars in your eyes and want to learn the basics of the acting business, this class is for you! Students will take part in daily exercises to develop energy, focus, and articulation skills. Individually, with partners, and in groups, class participants will study and develop commercials and scenes from plays, television, films, and other sources. Class members will be able to see themselves on videotape -- slating and performing monologues, commercials, and scenes. To help students who are interested in getting started in the business, a notebook of important information of the ins and outs of show business, including important laws pertaining to young actors, agents and managers, the audition process and protocol, headshots and resumes, and many other topics will be compiled throughout the summer session. Grades 5-8 Materials Fee: \$5.00

STUDY SKILLS FOR SCHOOL SUCCESS

This course will focus on study strategies to help ensure school success. Skills taught will emphasize organizational techniques including note-taking, proofreading, reading for understanding, summarizing, using graphic organizers, test-taking strategies, and mnemonic devices. Work Smarter, Not Harder! Grades 5-6 and Grades 7-8 Materials Fee: \$5.00

SUMMER GAMES

More games than you can imagine... Inside and out... Indoor activities include Crazy Bones, Jacks, Chess, Chinese checkers, Bingo, Monopoly, Trouble, Jenga, Operation, Clue, a variety of card games, and many more! Participate in contests and tournaments. Who will be our game champion? Outdoor activities include students participating in many popular fun traditional and non-traditional and water-filled cooperative activities. To cool off...students will be involved in traditional playground and field games and non-traditional games, & sports, and other activities. Fun filled examples include: Crazy daisies, sponge balls, water wars, water speed hoops, and water tunnel dodge ball. Looking forward to having a blast indoors and out! Grades 2 – 5 Materials Fee: \$5.00

THIS LAND IS YOUR LAND

This course will take you on a trip through the United States! We will “travel” to each state to learn about their state symbols and exciting or unusual places they contain, funny laws they may enforce, and what they are known for. For each state we will scrapbook a page. You will come away with a complete book all about your travels! Grades 3 – 5 Materials Fee: \$5.00

VOICE CLASS

Students will have an opportunity to work on their solo voice as well as sing together as a group. Each week student will be assigned a song to work on and perform at the end of the week. Grades 3-5 and 6-8 Materials Fee: \$5.00

WRITING FUNDAMENTALS and ILLUSTRATION

This is an English class with an emphasis upon writing. Students will write essays/stories each week, as well as illustrating their compositions. Topics covered include personal narrative, journalism exercise, creative writing, and poetry. There will also be an overview of grammar, punctuation, and spelling. Grades 4-5 Materials Fee: \$5.00

YouTube VIDEO PRODUCTION

Students will produce educational videos for YouTube using digital video cameras and editing software. Over this course, you'll examine the beneficial aspects of YouTube in the classroom. You'll also learn the step-by-step filmmaking process from generating an idea to finishing a project with the help of our nationally recognized Apple Distinguished Educator, Mr. Gulick. While not mandatory for the course, students will be encouraged to open a YouTube account. Grades 6-8 Materials Fee: \$10.00

BLOCK CLASSES, PERIOD 1 AND 2 COMBINED

INTRODUCTION TO KINDERGARTEN

Students entering kindergarten in August 2010 may enroll in this class. This introduction to kindergarten will give the child a feeling of self-confidence and familiarity with school routine. Many fun and interesting activities that foster social development and academic growth will be presented in this class. NOTE: This class runs from 8:30 AM to 11:30 AM. Grade Kindergarten

FIRST GRADE BLOCK CLASS - READING and MATH ENRICHMENT

Students entering first grade in August 2010 may enroll in this class. This course helps prepare kindergarten students for the transition to first grade. Part one of the class will reinforce and expand language arts skills. Special emphasize will be given to foster skills leading to successful letter sounding, word recognition, sight vocabulary, sentence writing, as well as beginning reading. Part two of this block will focus upon the reinforcement of basic math skills as well as the introduction of several science concepts. Both math and science will be explored through the use of manipulatives. Grade 1

SECOND GRADE BLOCK CLASS - LANGUAGE and MATH COMBINATION

Students entering second grade in the fall of 2010 may enroll in this block class. Students will benefit from two periods of instruction, which are team-taught. After the first period classes will shift.

One period of oral and written language: Students will have the opportunity to practice a variety of written language techniques and oral skills in fun and novel ways.

One period of Mathematics: Students will review basic math operations while using innovative and creative learning experiences. Science concepts will be included in many of the activities. Both math and science will be taught through the use of manipulatives as well as paper-pencil activities. Grade 2

THIRD GRADE BLOCK CLASS - LANGUAGE and MATH COMBINATION

Students entering third grade in the fall of 2010 may enroll in this block class. Students will benefit from two periods of instruction, which are team-taught. After the first period classes will shift.

One period of oral and written language: The first three weeks of this course are devoted to improving students' writing skills by focusing on friendly letters, thank you notes, poetry, several creative short stories, mysteries, and fairy tales. The last two weeks of this course are designed to give students the opportunity to improve their oral language skills. Each student will read, memorize, and perform in two skits for other classes and invited guests. Students will be introduced to basic performing arts/theater skills.

One period of Mathematics: Students will review basic math operations through innovative and creative learning experiences from direct instruction, cooperative group time, and independent activities. Grade 3

Materials Fee: \$5.00
