K.L. Carver Elementary School's **mission** is to create and maintain a nurturing learning environment that:

- Enables students to make well reasoned choices;
- Inspires living with integrity and concern for others;
- Cultivates appreciation for lifelong learning; and
- Increases adaptability to change in a diverse, ever changing world.

With 610 students, K.L. Carver Elementary School offers a challenging educational program that is closely matched with the developmental and educational needs of each child. Carver won the prestigious National Blue Ribbon Award in 2005, an honor bestowed by the U.S. Department of Education. Carver also was named a California Distinguished School in 2004, in recognition of our school's consistent standing in the top ten percent of all California schools based on students' standardized test results and other outstanding factors.

Instruction is grounded in rigorous content and performance standards and curriculum that go far beyond the basics. Well-trained professionals effectively use high quality instructional materials and technology tools. Students become literate seekers of knowledge who develop competent critical thinking, problem-solving, and communication skills. These skills are applied in core content areas including reading/English-language arts, mathematics, social studies, science, visual and performing arts, and health/physical education.

All students have equal access to the core and co-curriculum. In both the mainstream and special programs, those students with special needs (English learners, gifted/talented, and learning disabled) receive customized support designed to access the core curriculum in ways best suited to individual learning styles.

Invigorating, creative teaching and learning occur in a safe environment where positive attitudes and behavior are expected and achieved. Good citizenship and personal accountability for behavior are an integrated part of every activity.

## Student Population

Percent	100%	69.17%	0.47%	3.6%	24.41%	2.35%

\* Add 14 SDC students who are counted separately for purposes of CBEDS.

## Safety and Climate for Learning

On the whole, the students are academically focused and thus, there are very few discipline problems. Open and honest relationships among teachers, children, parents, and administration are a solid foundation for a safe school environment.

On the 2006 Healthy Kids Survey, 97% of fifth graders perceived school to be a safe environment. On the same measure, only 3% of the fifth graders reported they'd been hit or pushed in the past year.

A Comprehensive School Safety Plan is monitored and updated as appropriate by a representative team of school, parents, and community members including a law enforcement representative. The plan was recently updated in 2007. Components required by Education Code 52012 and 52842 address the following goals:

- Goal #1: All students and staff members are provided a safe teaching and learning environment.
- Goal #2: All students are safe and secure while at school, when traveling to and from school, and when traveling to and from school related activities.
- Goal #3: District programs and approved community resources are made available to students and parents.
- Goal #4: Students, parents, staff, and community members shall effectively communicate in a manner that is respectful to all cultural, racial, and religious backgrounds.

## Suspensions and Expulsions

A safe school environment is a given at Carver. Suspensions or expulsions are rare.

School/District	2004-2005		2005-2006		2006-2007	
	Number	Rate	Number	Rate	Number	Rate
Suspensions	5	1.1	3	.5	2	.3
Expulsions	0	0	0	0	0	0

## Local Assessments

The Carver faculty is developing benchmark performance assessments that are aligned to local and state content standards according to the schedule set forth in the District's Accountability Design. Summary reporting systems are additionally in progress. For more information contact the Principal Elizabeth Hollingsworth at (626) 299-7080.

## Standardized Testing and Reporting (STAR)

### California Standards Tests

These charts represent the percent of students achieving at a level of "proficient" or higher on the California Standards Tests (CST). Scores for all students, as well as results for significant subgroups, are reported.

## National Norm Referenced Test

This data is reported as the percent of students scoring above the 50<sup>th</sup> percentile on the 2007 California Assessment (Survey) Test, Sixth Edition for purposes of NCLB at *grade 3 only*.

“Carver Elementary School Students consistently score in the top 10% of California schools.”

## California Physical Fitness Tests

The Fitness-gram was administered to all fifth grade students, as mandated by the State. This test assesses six major fitness areas, including aerobic capacity (cardiovascular endurance), body composition (percent of body fat), abdominal strength and endurance, trunk strength and flexibility, upper body strength and endurance, and overall flexibility. A number of test options are provided for most of the fitness areas so that all students, including those with special needs, have the maximum opportunity to participate. The percentage of students that scored in the healthy fitness zone on five or more of the six fitness areas tested are:

# Academic Performance Index

The Academic Performance Index, or API, is a scale from 200 to 1000 points that annually measures the academic performance and progress of individual schools in California. Carver has consistently scored significantly above the state's annual target of 800. Although Carver qualifies for the API Awards Programs, the California legislature has not allocated funds.

Carver Elementary is ranked **first** in Los Angeles County in comparison to other comprehensive elementary schools.

## Annual Yearly Progress

Carver met Annual Yearly Progress requirements for NCLB.

The Federal No Child Left Behind Act (NCLB) requires that all students perform at or above the proficient level on the state's standards based assessments by 2014. K.L. Carver Elementary School met the following criteria for all students, as well as for all significant subgroups, and thus was not named for any state or federal intervention programs.

- A gradually increasing percent of students who score proficient or above on California Standards meet uniform objectives set by the federal government.
- 95% participation rate in standardized testing
- Growth in four-year high school graduation rate
- Growth in Academic Performance Index

## Texts and other Instructional Materials

Students enjoy quality texts, supplementary materials, and other instructional resources that complement the standards based instruction. Every student has access to textbooks, including English Language Learners and students with other special needs.

Textbooks used in Reading/Language Arts (2003), Mathematics (2002), Social Studies (2006), and Science (2007) are standards based.

The Board of Education has certified there are sufficient textbooks purchased in compliance with Education Code 60119 and Section 6042.5 on September 25, 2007. For specific information about compliance with the Williams Settlement, use this link:

## Support Services

When there is evidence of concern about a student, the teacher, parent, or student request a Student Success Team meeting to explore the child's needs and develop a plan to support the child.

The personal touch is an important ingredient for the long-range success of our children. A part-time school psychologist is on site to support students as they cope with learning and/or emotional concerns. A full range of learning specialists and designated instructional services are available for children who qualify for special education.

Number of these core classes taught by teachers who are compliant with NCLB requirements for content knowledge.	97%
Was the "Annual Measurable Objective" (AMO) for 2007 met?	YES

## Teacher Evaluation

Just as students receive feedback on performance, teachers are observed and coached in a process to promote professional improvement. Probationary teachers are assessed annually and tenured teachers are evaluated every other year based on the California Standards for the Teaching Profession.

1. Engaging and supporting all students in learning,
2. Creating and maintaining effective environments for student learning,
3. Understanding and organizing subject matter for student learning,
4. Planning instruction and designing learning experiences for all students,
5. Assessing student learning, and
6. Developing as a professional educator.

When a teacher with ten or more years of successful experience has met the criteria for NCLB compliance in subject matter knowledge, he/she may mutually agree with the supervising administrator to be placed on an alternative evaluation timeline for the evaluation process. This timeline may revert to every other year by the request of either the principal or the teacher at any time.

## Professional Development

Professional development is research-based, founded on student needs as matched to the teachers' instructional strengths and challenges. The goal of the program is to improve student performance in the core content areas.

The emphasis for the 2007-2008 school year are as follows: (1) differentiated instruction, (2) newly adopted science materials implementation; and (3) Visual and Performing Arts (dance). Three Professional Development Days are used to address the above goals and other instructional issues as determined by the elementary leadership team, consisting of teachers and principals. Teachers participate in workshops, conferences, and faculty meetings, and individualized programs (PAR) as appropriate to teacher needs. New teachers have the opportunity to participate in the SB2042 Induction Program, Beginning Teacher Support and Assessment (BTSA).

## Opportunities for Parent Involvement

Carver's campus is abuzz with dedicated volunteers who facilitate classroom learning, activities, and events. This level of commitment does not happen by accident, but through a strategy of personalized recruitment and on-going appreciation. With tens of thousands of reported volunteer hours, the PTA is an essential component of school life. Parents are active in fund-raising through annual gift-wrap sales, Book Fairs, Parent Party, Math-a-thon and the Carver Carnival. PTA monies support library and computer lab instructors, Instructional Assistants, our annual Science Fair, and the Art Festival. Carver's PTA contributes to the cultural arts program and curriculum experiences by funding assemblies and field trips. Carver PTA has an active voice in decisions about the school program.

### Facilities

10.2 million dollars in bond funds have been spent on new construction and renovation that is still currently in progress at Carver. The academic facilities are comfortable, spacious, air-conditioned, and well designed for instruction. The Carver School facilities are well maintained in a manner that is clean, safe, and functional. For up to date information on compliance with the Williams Settlement see this link.

<http://www.san-marino.k12.ca.us/di/administration/instruction/williams.htm>

## School Leadership

Leadership and teamwork are emphasized in this tightly knit school family. The site enjoys strong instructional leadership that is shared among administrators and teachers. For example, the Grade Level Chairs and the Principal form an effective leadership team that is intricately involved in every aspect of the instructional and co-curricular programs. The School Site Council (SSC) is an elected body consisting of parents, teachers, administrators, support staff, and students. The forum serves as the foundation for planning, evaluation, and decision-making at Carver.

Principal Hollingsworth is highly experienced, having served as principal of Carver for **thirteen years**.

In turn, leadership and teamwork are nurtured among teachers, parents, and students. A system for staff, community, and parent input and shared decision-making is employed. Grade Level Chairs lead instructional collaboration among teachers and provide input to the site leadership team. Sensitive to staff input, decisions are very often made by consensus. Students are vital players as members of Student Council.

## Technology

Carver children have access to computer technology in every classroom and in a computer lab on campus. The Carver campus has **109** computers and **50** printers. In addition classes have access to LCD Projectors and other instructional technology. **37** classrooms have internet connection.

Every computer has content-filtered Internet access. Use of technology tools is integrated into the core curriculum, as it is appropriate, to the task at hand. Students learn research, information processing, communication, presentation and other technology applications in the normal course of their assignments.

Hardware and software are updated to accommodate instructional needs within the classroom, library and computer lab.

A dedicated half time technology services technician is available to staff and students for purposes of maintenance and support as needed.
