Mission

The mission of William L. Valentine Elementary School, in partnership with parents and community, is to provide students with an academically focused program in a positive and caring learning environment. Using broad-based curriculum and support programs, we strive to empower the students for future success by providing student self-worth, social responsibility, and respect for individual differences.

A Summary of Program Offerings

With about 640 students, Valentine Elementary School maintains a challenging educational program that is closely matched with the developmental stages and educational needs of the children.

Instruction is grounded in rigorous content and performance standards and curriculum that go far beyond the basics. Students become competent in using the tools of critical thinking and communication as they learn to become literate seekers of knowledge, effective users of ideas, information, communication, and problem solving. These skills are applied in core content areas including reading/English-language arts, mathematics, social studies, science, visual and performing arts, and health/physical education. Well-trained professionals effectively use the high quality instructional tools, including readily available technology tools. Good citizenship and personal accountability for behavior are an integrated part of every activity.

All students have equal access to the core and co-curriculum. Those with special needs (English learners, gifted/talented, and learning disabled) receive specialized support both in the mainstream and special programs that is designed to access the core curriculum in ways that best suit individual learning styles and needs.

Interesting and creative teaching and learning occur in a safe environment where positive attitudes and behavior are expected and achieved.

Safety and Climate for Learning

On the whole, the students are academically focused and thus, there are very few discipline problems. Open and honest relationships among teachers, children, parents, and administration are a solid foundation for a safe school environment.

On the 2008 Healthy Kids Survey more than 95% of fifth graders perceived school to be a safe environment. On the same measure, less than 5% of the fifth graders reported they'd been hit or pushed in the past year.

A Comprehensive School Safety Plan is monitored and updated as appropriate by a representative team of school, parents, and community members including a law enforcement representative. The plan was most recently addressed in March 2005. Components required by Education Code 52012 and 52842 address the following goals:

- Goal #1: All students and staff members are provided a safe teaching and learning environment.
- Goal #2: All students are safe and secure while at school, when traveling to and from school, and when traveling to and from school related activities.
- Goal #3: District programs and approved community resources are made available to students and parents.
- Goal #4: Students, parents, staff, and community members shall effectively communicate in a manner that is respectful to all cultural, racial, and religious backgrounds.

Suspensions and Expulsions

A safe school environment is a given at Valentine. Home suspension or expulsion is rare.

National Norm Referenced Test

“Valentine Elementary School Students consistently score in the top 10% of the California schools.”

This data is reported as the percent of students scoring above the 50th percentile on the California Assessment Test, Sixth Edition in grade 3 as is mandated for NCLB. The CAT-6 test was discontinued in 2009.

Subject	Valentine			District			California		
	Grade 3 Students			Grade 3 Students			Grade 3 Students

*This score represents grades 2-5. It is not comparable to 2005 scores that report grade 3 only.

Local Assessments

“The teachers administer benchmark assessments to measure progress on locally adopted standards.”

The Valentine faculty is developing benchmark performance assessments that are aligned to local and state content standards according to the schedule set forth in the District’s Accountability Design. Summary reporting systems are additionally in progress. For more information contact the Principal Ms. Billie Jean Knight at (626) 299-7090.

Academic Performance Index

The Academic Performance Index, or API is a scale from 200 to 1000 points that annually measures the academic performance and progress of individual schools in California. Valentine has consistently scored significantly above the state's annual target of 800. Although Valentine qualifies for the API Awards Programs, the California legislature has not allocated funds.

Annual Yearly Progress

Valentine met Annual Yearly Progress requirements for NCLB.

The Federal No Child Left Behind Act (NCLB) requires that all students perform at or above the proficient level on the state’s standards based assessments by 2014. Valentine Elementary School met the following criteria for all students, as well as for all significant subgroups and thus was not named for any state or federal intervention programs.

- A gradually increasing percent of students who score proficient or above on California Standards meet uniform objectives set by the federal government.
- 95% participation rate in standardized testing
- Growth in four-year high school graduation rate
- Growth in Academic Performance Index

Texts and other Instructional Materials

Students enjoy quality texts, supplementary materials, and other instructional resources that complement the standards based instruction. Every student has access to textbooks, including English Language Learners and students with other special needs.

Reading/Language Arts (2003) and Mathematics (2002) and Social Studies (2006) and Science (2007) are standards based texts.

The Board of Education has certified there are sufficient textbooks purchased in compliance with Education Code 60119 and Section 6042.5 on September 25, 2007. For specific information about compliance with the Williams Settlement, use this link:

<http://www.san-marino.k12.ca.us/di/administration/instruction/williams.htm>

Support Services

When there is evidence of concern about a student, the teacher, parent, or student requests a Student Success Team meeting to explore the child's needs and develop a plan to support the child.

The personal touch is an important ingredient for the long-range success of our children. A part-time school psychologist is on site to support students as they cope with learning and/or emotional concerns. A full range of learning specialists and designated instructional services are available for children who qualify for special education.

Teacher Evaluation

Just as students receive feedback on performance, teachers are observed and coached in a process to promote professional improvement. Probationary teachers are assessed annually and tenured teachers are evaluated every other year based on the California Standards for the Teaching Profession.

1. Engaging and supporting all students in learning,
2. Creating and maintaining effective environments for student learning,
3. Understanding and organizing subject matter for student learning,
4. Planning instruction and designing learning experiences for all students,
5. Assessing student learning, and
6. Developing as a professional educator.

When a teacher with ten or more years of successful experience has met the criteria for NCLB compliance in subject matter knowledge, he/she may mutually agree with the supervising

2009-2010 Valentine Accountability Report Page 9 of 14

administrator to be placed on an alternative evaluation timeline for the evaluation process. This timeline may revert to every other year by the request of either the principal or the teacher at any time.

Professional Development

Professional development is research-based, founded on student needs and matched to the teachers' instructional strengths and challenges. The goal of the program is to improve student performance in the core content areas.

The emphases for the 2009-2010 school year are as follows: (1) the continued revision and effective use of benchmark assessments to measure and report student mastery of the California/San Marino standards; and (2) differentiated instruction; and (3) Visual and Performing Arts (Theatre and Dance Program refinement and music text adoption). Three Professional Development Days are used to address the above goals and other instructional issues as determined by the site elementary leadership team, consisting of teachers and principals.

New teachers have the opportunity to participate in the SB2042 Induction Program, and the Beginning Teacher Support and Assessment (BTSA). In addition, all teachers have access to the Peer Assistance and Review Program.

Teachers participate in workshops and conferences (as budgets allow), faculty meetings, and individualized programs as appropriate to meet the needs for continued improvement in instruction as measured by student achievement.

Opportunities for Parent Involvement

Valentine's campus is abuzz with dedicated volunteers who facilitate classroom learning, activities, and events. This level of commitment does not happen by accident, but through a strategy of personalized recruitment and on-going appreciation. With over thirty thousand reported volunteer hours, the PTA is an essential component of school life. Parents are active in fund-raising, Book Fairs, Parent Party, Jog-a-thon, Chinese New Year celebrations and the Valentine Fall Festival. PTA funds support additional library, art & computer lab instructional assistants, our annual Science Fair, and the Art Festival. Valentine's PTA contributes to the cultural arts program and curriculum experiences by funding assemblies, music and art consultants and field trips. Valentine PTA has an active voice in decisions about the school program. The parents volunteer actively in and out of classrooms. For more information, contact our 2009-2010 President Tricia Stenwall at (626) 299-7090

Facilities

2009-2010 Valentine Accountability Report

10.2 million dollars in bond funds have been spent on new construction and renovation that recently completed at Valentine. The academic facilities are comfortable, spacious, air-conditioned, and well designed for instruction.

The Valentine School facilities are well maintained in a manner that is clean, safe, and functional. Inspections show no areas of deficiency. No complaints have been filed. For more information see www.san-marino.k12.ca.us/di/administration/instruction/williams.htm

School Leadership

Leadership and teamwork are emphasized in this tightly knit school family. The site enjoys strong instructional leadership that is shared among administrators and teachers. For example, the Grade Level Chairs and the Principal form an effective leadership team that is intricately involved in every aspect of instructional and co-curricular programs. The School Site Council (SSC) is an elected body consisting of parents, teachers, administrators and support staff. The forum serves as the foundation for planning, evaluation, and decision-making at Valentine. In addition, the PTA plays a vital role in leading and supporting school activities. Principal Knight is appropriately certified and highly experienced, having served as both site and district administrator for many years. In turn, leadership and teamwork are nurtured among teachers, parents, and students. A system for staff, community, and parent input and shared decision-making is employed. Grade Level Chairs lead instructional collaboration among teachers and provide input to the site leadership team. Sensitive to staff input, decisions are very often made by consensus.

Technology

Valentine Elementary School children have access to computer technology in the classroom and in the computer lab on campus. The Valentine campus has 185 computers and 50 printers. Internet is available in every classroom and library. Every computer has content-filtered Internet access. Use of technology tools is integrated throughout the curriculum as it is appropriate to the task at hand. Students learn research, information processing, communication, presentation and other technology applications in the normal course of their classroom and computer lab assignments.

Hardware and software are routinely updated to accommodate instructional needs within the classroom, library and computer lab.
